Technical Data Sheet

OFFSET PLATE CLEANER

DESCRIPTION

Product for cleaning and activation of conventional offset and CTP plates.

Activates very efficiently aluminum, printing and non-printing areas.

Low environmental impact product.

CHARACTERISTICS

High efficiency non abrasive emulsion that permits, with one unique product, the cleaning and activation of the plate without damaging it.

Excellent degreasing properties facilitating ink transfer.

ADVANTAGES/BENEFITS

1. Excellent plates activator
2. Sharper and more brilliant printing
3. Eliminates scratches and dots
4. Degreases marks and grease stains
5. Improves ink transfer
6. **Low environmental impact**

INSTRUCTIONS FOR USE:

Apply, with a soaked sponge, an even thin layer on the entire plate surface that needs to be treated, rubbing slightly.

Pass over afterwards with a clean sponge and rinse.

CHEMICAL-PHYSICAL CHARACTERISTICS

Appearance	Bright red liquid
Odor	Characteristic
pH (as it is)	< 2
Flash Point	> 65°C
Density	1,010 – 1,030 g/cm ³
Water soluble	Partially soluble
Solvent soluble	Partially soluble

PRECAUTIONS FOR USE AND STORAGE

Chemical product, for industrial use only. Harmful if ingested.

It is recommended to use the personal protective equipment indicated in the MSDS, while manipulating the product, especially protective glasses and gloves as well as adequate clothing.
