

TECHNICAL DATA SHEET

WASH

HIGHLY EFFECTIVE AND MEDIUM EVAPORATING SOLVENT MIXTURE FOR ROLLERS AND BLANKETS CLEANING IN PRINTING PRESSES

CHARACTERISTICS: Selected product, absolutely necessary in cleaning processes due to its high activity. It quickly eliminates even hardened inks. Essential when printing a light colour after a dark one.

APPLICATION: Mainly used in manual cleaning. It can be used also in automatic cleaning processes. It guarantees a quick and in-depth cleaning, thus allowing a quick colour change. It can be emulsified with water until a ratio of 1:1 max.

TECHNICAL DATA:

PHYSICAL STATE: Liquid

COLOUR: Straw-coloured

ODOUR: Typical

BOILING POINT: 150°C

FLASH POINT: 40° C

WATER SOLUBILITY: Emulsifiable in water

PRECAUTIONS: The product is classified as flammable. Handle with care and keep to the safety advices indicated on the label.

Not suitable for EPDM rollers

PACKING: Carton containing 4 metal cans of 5 litres

Disposable 20 litres metal cans

Disposable 200 litres metal drums
