WELCOME

Welcome to the 2023 wholesale line sheet. I am excited to share my work with you and your customers. I have been a professional artist since 1993. I believe that customer service is the key to having a successful business relationship. If you're happy, I'm happy! Please contact me if you have any questions or comments. I look forward to working with you.

ARTIST STATEMENT

Laura Robson is best known for her use of industrial materials in combination with precious metals and stones that gracefully adorn the body. "I believe industrial materials have a place in modern jewelry making." Inspired by blacksmithing and architectural ironworks, Laura sculpts, bends, twists and hammers steel to create elegant and strong jewelry that makes a bold statement. While her jewelry has changed throughout her art career dating back to the late 90's, the use of alternative materials has always been part of her designs.

CARE

How to care for steel jewelry? Steel is a lightweight and durable material that is great for jewelry. Your steel jewelry is coated to prevent rust, however I recommend removing your steel jewelry before showering or swimming. The black finish on your steel jewelry is durable, however over time and wear it may become lighter or brighter. If you would like your steel jewelry returned to its original matte black, simply email laura@laurarobsondesign.com to request information.
