## PowerCombo PowerStrip 100W 2AC+2U+2C User Manual

Please Read This User Manual Completely And Keep It Properly

### 1. Product Introduction

This product is a power strip with four DC outputs and two AC outlets, its total DC output is 100W and AC output is 1250W. It has a small size and various interfaces (2AC+2USB+2Type-C), compatible with multiple fast charging protocols such as QC4+, PD3.0, QC3.0, QC2.0, SCP, FCP, AFC, and PE+. The maximum output power of Type-C1 and Type-C2 is 100W (20V/5A) when they are used separately, which can provide full speed fast charging for most laptops. When use 4 ports simultaneously, Type-C1 port can still be used to fast charge most phones and laptops, such as IP PD fast charging, Samsung 25W, Xiaomi 27W devices. Multiple safety protection circuits are built in it, such as over-current, over-voltage, and temperature protection.

### 3. Product Parameter

Brand: Baseus  
Name: Extension Cord Set (with 100W GaN Charger)  
Model No.: CCGAN100-2ACS  
Material: PC  
Color: Black  
Rated Voltage: 125V~60Hz  
Rated Power: 1250W Max.  
Rated Current: 10A Max.  
Type-C1/Type-C2 Output: 5V/9W/12V/15V~3A; 20V~5A  
USB1/USB2 Output: 5V/9W/12V/20V~3A  
Type-C1+Type-C2 Output: 65W+30W/30W+65W  
USB1+USB2 Output: 5V~3A  
Type-C1/Type-C2+USB1/USB2 Output: 65W+30W  
Type-C1+Type-C2+USB1/USB2 Output: 60W+20W+18W  
Type-C1+Type-C2+(USB1+USB2) Output: 60W+20W+15W  
Power Cord Length: 1.65m(65inch)  
Product Size: 112X46.5X38 mm  
Product Weight: About 445g

### 4. Package List

- Power Strip\*1
- Charging Cable\*1
- User Manual \* 1
- Warranty Card \*1

### 5. Temperatures

Ambient temperatures: non-tropical areas lower than 2000m above sea level.  
Storage ambient temperatures: -20 to 40 degrees Celsius.

### 6. Tips

- Please read all instructions and warnings before using this product.
- The total output power shall not exceed 1250W
  - It is forbidden to wind the power cord to avoid overheating
  - Please keep this product away from children
  - Do not store the product in high temperature, strong light and strong magnetic field. Storage ambient temperatures: -20 to 40 degrees Celsius;
  - Do not place it in other harsh environments such as fire source.
  - Improper use of the product can easily cause damage to the product or may endanger personal and property safety.
  - Consumer shall be liable for any personal and property damage resulted from their improper use against the user manual or ignoring the warning, to which our company will not bear any legal liability.
  - Disassemble of this product by non-professionals is strictly prohibited.
  - Intense physical actions including knocking, throwing, trampling on and squeezing, etc. shall be avoided.
  - This product shall be used in non-tropical areas lower than 2000m above sea level.

The 10-year icon refers to the "valid environment-friendly use period", not the product quality assurance period. Electronic products contain toxic and harmful substances such as lead, mercury and cadmium. The overuse of these products may lead to leakage or mutation of these toxic and harmful substances, cause environment pollution or serious damage to people and property. The term of "environment-friendly use period" means that all electronic products shall be used within this validity period. We are free of any responsibility against safety issues caused by using the product beyond its safe service life.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
