About us

We founded Ferme Giroflée in 2014. Here, we produce highbush blueberries as well as a variety of fruits and vegetables all certified organic by Ecocert Canada.

We improve marketing of our products by hyper-local distribution through large warehouse banners, wholesalers, institutions, restaurateurs, retailers and short-circuit partners. For us, it's important to work in symbiosis with nature and communities.

Since our beginnings, we have developed a strong and structured marketing strategy based on two brand names: Collectif Giroflée and Collectif de Bleuets Bio Local.

The Collectif Giroflée brings together Quebec growers producing a variety of certified organic fruits and vegetables. As for the Collectif de Bleuets Bio Local, which joins the Collectif Giroflée, it is the only group of organic highbush blueberry growers in Quebec.
