SINGLE LEVER LAVATORY FAUCET

The product is CUPC, NSF-61, AB1953, WATERSENSE and ADA certified.

Original certification model code: QE16102

ASME A112.18.1/CSA B125.1

RECOMMENDED TOOLS

Socket wrench

Channel Locks

Goggles

Adjustable Wrench

Teflon tape

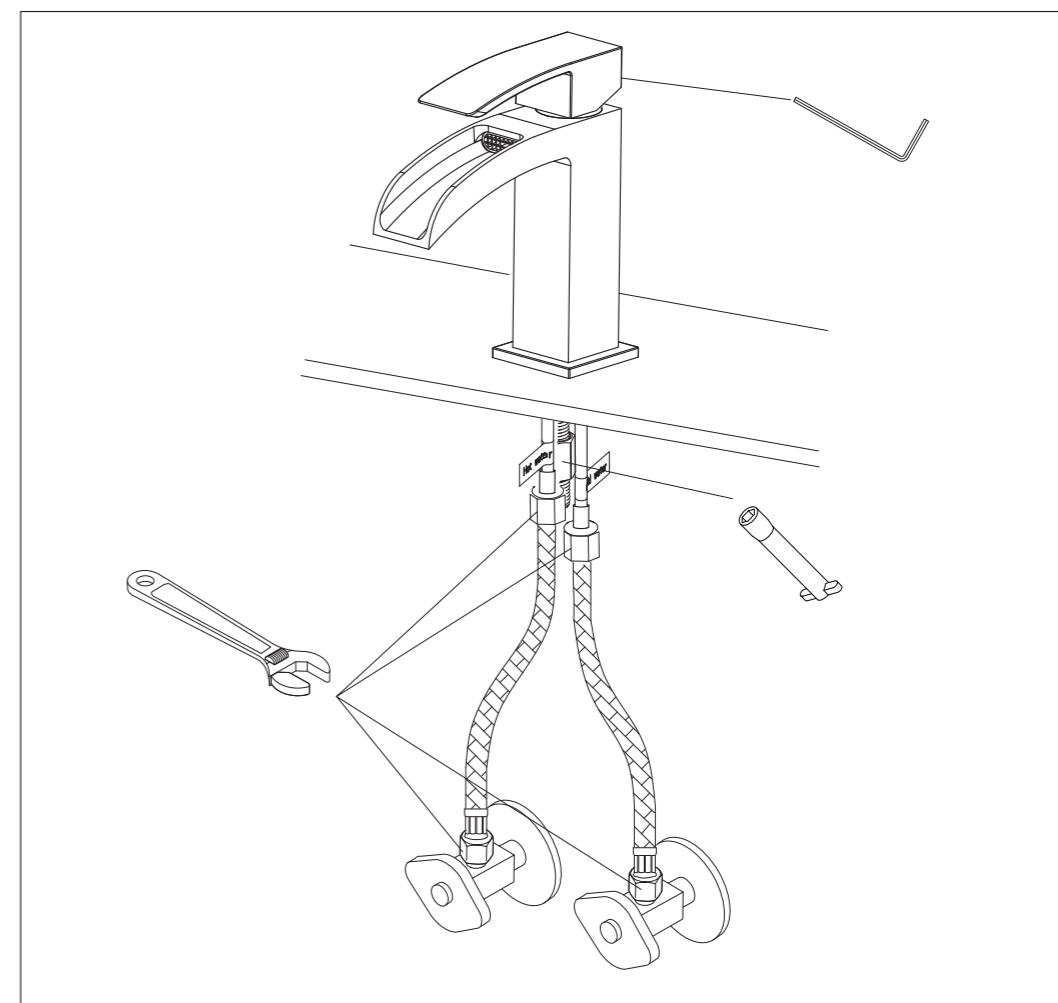

Allen key

WARNING:
Please keep the tool for future use!

Attention:
for easy installation, you will need:
1. To read all the installation instruction completely before beginning.
2. To read all the warning, attention and maintenance information.
3. To purchase the proper supply lines.

The tools might be applied to the following places:

Step 1 Faucet installation

1. Position the faucet, o-ring on the installation surface.
2. Adjust the position of the faucet and secure it with the fixing kit as photo.

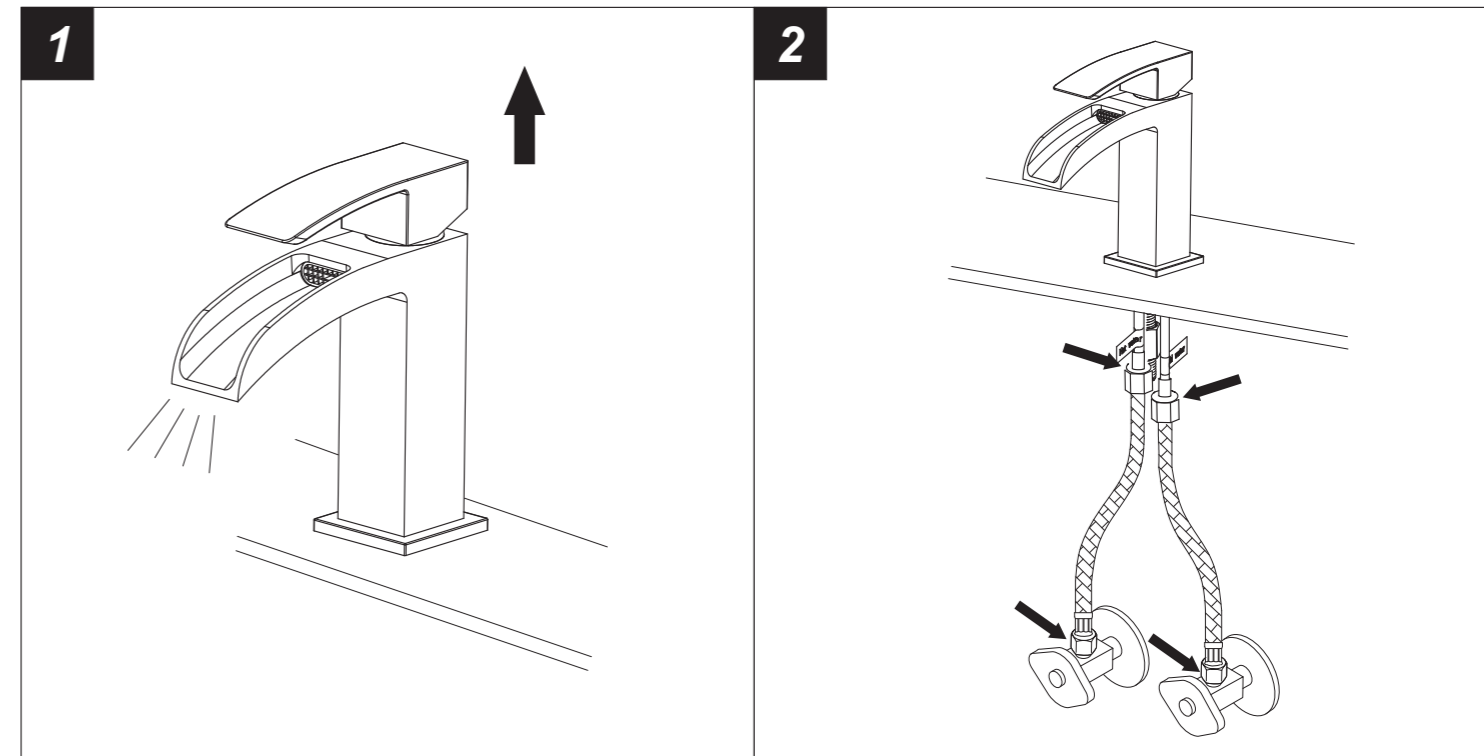

3. Connect the flexible hoses to water supply valve (not included) and copper tubes, and tighten it with adjustable wrench. **DON'T OVER TIGHTEN!**

Caution: make sure connect the hot and cold flexible hose to supply valves correctly.

Warning: The supply valves are not included, please purchase them in plumbshop.

Step 2 Checking and testing

1. Turn the faucet handle all the way on, turn on hot and cold water supply and flush water lines for one minute.
2. Check all connections at arrows for leaks, re-tighten it if necessary.

BUT DON'T OVERTIGHTEN

Step 3 Cleaning and care

Daily cleaning and care are required in order to keep the product shining and properly working.

- 1 Clean it with water and dry it with soft cloth.
- 2 Clean the product with gentle liquid or glass cleaner.
- 3 Don't use acid cleaner.
- 4 Don't clean with abrasive material, abrasive paper or knife.
