ABOUT US

ANZZI™ offers world-class craftsmanship in the production of its diverse array of home hardware and fixtures. ANZZI™ is committed to the highest standards of artisan design evidenced by our products' lifelong durability. We create a diverse array of products that represent a myriad of styles, shapes, and sizes. We've crafted our products with the highest-quality materials, knowing that every piece must live up to our reputation for design excellence. Simply, anything less is unworthy to be stamped with the ANZZI™ brand.

ANZZI™ specializes in creating high-end luxury kitchen and bath faucets, shower systems, and bathtubs that could easily be described as works of art. We offer one-of-a-kind collections created by some of the most respected designers in the industry.

OUR MISSION

Forever tied to the traditions of old ANZZI™ strives to craft unique and timeless works of art to be admired and enjoyed for generations to come. Marrying the timelessness of old world charm and function with the latest new century technology and styles, ANZZI™ has crafted a philosophy centered on an enduring legacy of quality, inspired design, and trending innovation.

With the introduction of each new collection, ANZZI™ bares to the world an artistic statement expressed in a form that millions can enjoy in their very homes.

A home becomes the legacy passed on through the generations. We want that legacy to become a timeless reminder of where we all come from.

And where we are going.

ENGINEERING

Style, however, does not come at the cost of quality and structural integrity. Whether it's the highest grade materials, the finest quality components or the most proven engineering techniques, ANZZI™ will only use the best. And in turn only offers the best in home fashion fixtures.

The products we offer, be they bathtubs, toilets, bathroom or kitchen faucets and sinks, are more than just static fixtures placed in a home. Our customers and their families interact with these items every day. The bathroom, for instance, is often the first place visited every morning and the last stop every night. As much as looks and style is a pivotal part of the ANZZI™ philosophy, functionality and reliability is paramount.

AN INDELIBLE LEGACY

Throughout the ancient world the roman aqueducts stood as a symbol of engineering prowess unmatched for millennia. The aqueducts were constructed with only the finest materials available and to the empire it was a lifeline that brought tons of fresh water while expelling the waste. The aqueducts stand as a monumental feat achieved with the combined efforts of contemporary master class designers, architects, engineers, masons, surveyors and

more. Master craftsmen of the highest echelon contributed to create something entirely greater than they could achieve alone.

This is the vision for ANZZI™ and this is the type of product we strive to produce for our customers because, just like the aqueducts of ancient Rome, our products are something people depend on every day. And we're not going to let you down.

The road to ANZZI™ is one paved with hard work and dedication passed down through the generations of master craftsman and builders. A proud lineage encompassing nearly a century of knowledge and tradition that laid the foundation of who we are and what we can achieve.

Sincerely,

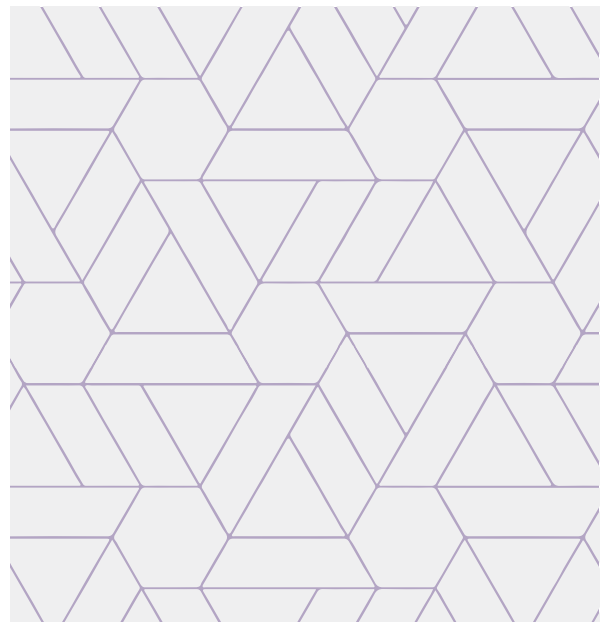

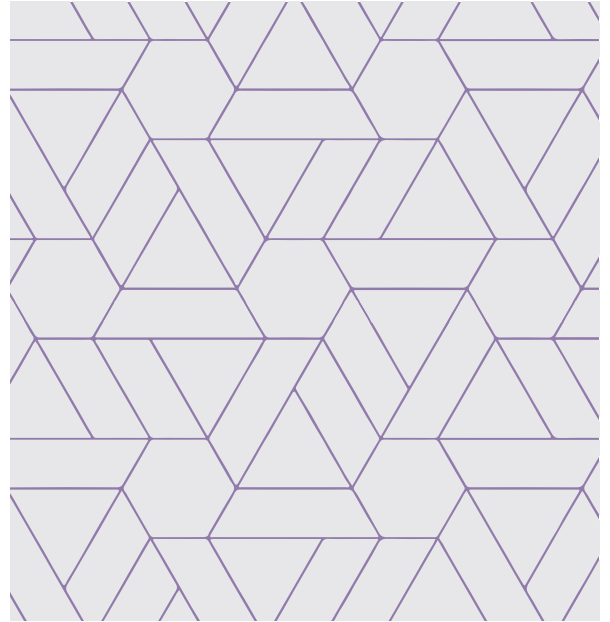

LA FAMIGLIA ANZZI™

ANZZI STONE™

ANZZI™ has developed a composite blend which hardens into a heavy duty solid stone material known as ANZZI STONE™. This space age material is warm to the touch, boasts a soft matte-to-semi gloss finish and will never suffer discoloration. ANZZI STONE™ can be shaped into elegant contemporary and modern style sinks, counter tops, bathtubs and more.

ANZZI™ FEATURES

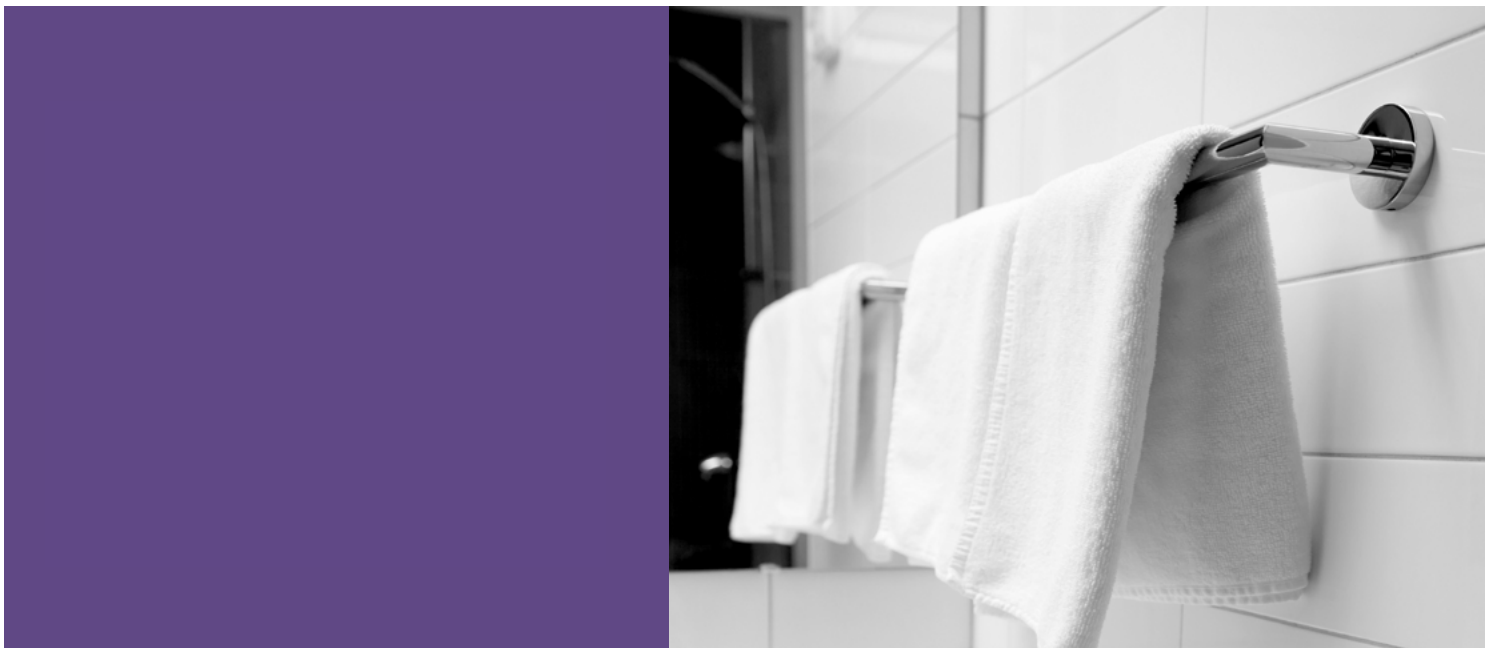

TSUNAMI GUARD™

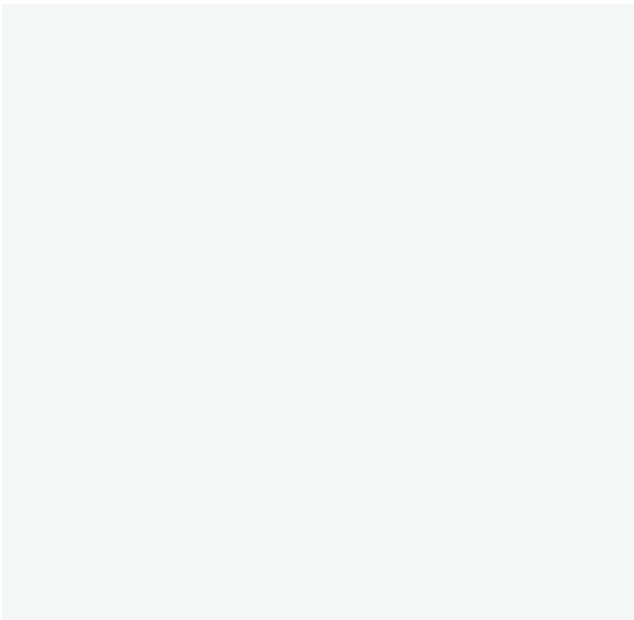

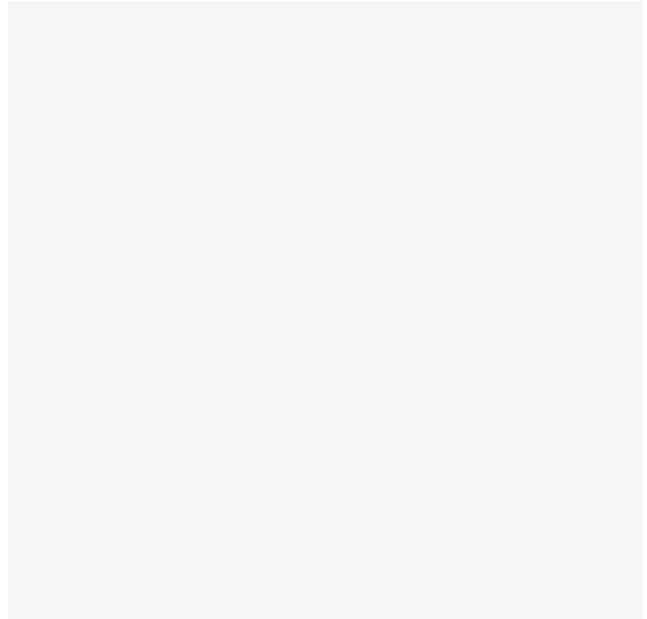

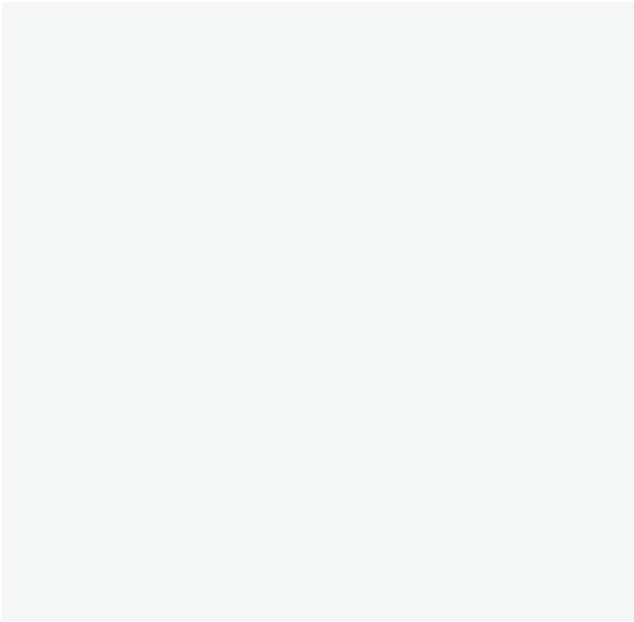

The ANZZI™ TSUNAMI GUARD™ is a protective layer added to all ANZZI™ shower doors and shower enclosure units which repels all moisture preventing any scum or grim build up on the glass surface. Our TSUNAMI GUARD™ layer is completely transparent, keeping your door and enclosure glass crystal clear.
