

HEATED TOWEL RACKS

Heated Towel Racks replace towel bars and robe hooks to provide your bathroom with a stylish and functional upgrade – Step out of your shower and into a warm, fluffy towel! Hang your wet towels so they dry quickly and prevent musty odors. Save your bathrooms from that damp, moldy smell while reducing the need to wash towels as frequently! Larger Heated Towel Racks can even function as space heaters for colder bathrooms and help to reduce humidity. There are other areas of the home that can benefit from a Heated Towel Rack:

LAUNDRY ROOMS

Heated Towel Racks can safely dry jeans or more delicate items – some models include a digital heat controller for precise heat control.

MUD ROOMS

From wet suits and bathing suits to ski jackets and mittens. Give them a place to dry out with a Heated Towel Rack, saving a trip to the laundry hamper!

POOLS & SPAS

Dry towels and bathing suits for a pool day, or warm bathrobes for that relaxing and much needed spa day.

HOTELS

Dry towels out, helping to prevent the growth of mold, mildew and bacteria on bath towels. Reduce Laundry expenses by making the reuse of towels easy, saving water, electricity, detergent and labor. Offer hotel guests the comfort of warm and dry towels!

BOATS & YACHTS

Heated Towel Racks can even be included on boats or yachts to bring their style and functionality on board.

AMBA PRODUCTS

- Made from high-quality environmentally-friendly 304 stainless steel
- Available in various finishes
- Installs easily – some models are plug in
- All units are UL or ETL approved for safety in Canada and the USA
- Models consume minimal power – some equivalent to just one or two light bulbs
- Custom finishes, special order sizes and hydronic options are available by special order.
