Do not fix to damp or conductive surfaces.

Site well away from curtains and fabrics.

Never cover the mirror.

Switch off after use

Do not leave on for prolonged periods.

IMPORTANT! – BEFORE YOU BEGIN

Inspect the product immediately upon receipt for transit damage or missing parts

Handle the product with care and protect against knocks to all sides and edges of the glass.

Fixings supplied are for use in solid walls, hollow or stud walls will require specialist fixings available from your hardware store

Make sure that you have all the tools you need to complete the job (SEE BELOW)

Ensure there are no hidden pipes or cables in the wall before drilling.

If drilling holes in ceramic tiles use a piece of masking tape on the tile to stop the drill bit from slipping.

AFTERCARE INSTRUCTIONS

Clean using a soft dry cloth only when turned off.

Never use cleaning agents or abrasive materials.

Do not allow moisture to come into contact with lamps.

TOOLS REQUIRED

CONTAINS:

1 x Mirror, 2 x screws and 2 x wall plugs

INSTALLATION INSTRUCTIONS

1. Switch off the electrical supply at the mains before beginning
2. Using the template, mark the wall with a pencil.
3. Ensure that the mirror is level and check there are no hidden pipes or cables before drilling.
4. Wearing suitable eye protection, drill 2 holes using a 3/8" drill bit and fix the wall plugs and screws in place leaving the end of the screw head protruding from the wall, about 1/4"
5. Locate the holes for fixing the mirror light at the top of the mirror frame and feed the light cable through ensuring that any grommets are replaced.
6. Make the electrical connections in accordance with current IEE wiring regulations. If in doubt consult your electrician.
7. Carefully hang the mirror
8. Switch on the mirror light using the Switch at the side
