ENJOY THE MOMENT

Every day at MSpa, we have the luxury of seeing the firsthand and healthful effects of water treatment. As a top-ranked spa brand, MSpa is the unique resource for exploring the latest discoveries and trends in wellness and hydrotherapy.

THE SMARTEST INFLATABLE HOT TUB EVER.

To make products smarter and more considerate, to allow users to reduce tedious operation and maintenance, this is the driving force behind the development of MSPA.

Let's meet the new generation!

■ INTELLIGENT ■

M-ONE AUTO INFLATION

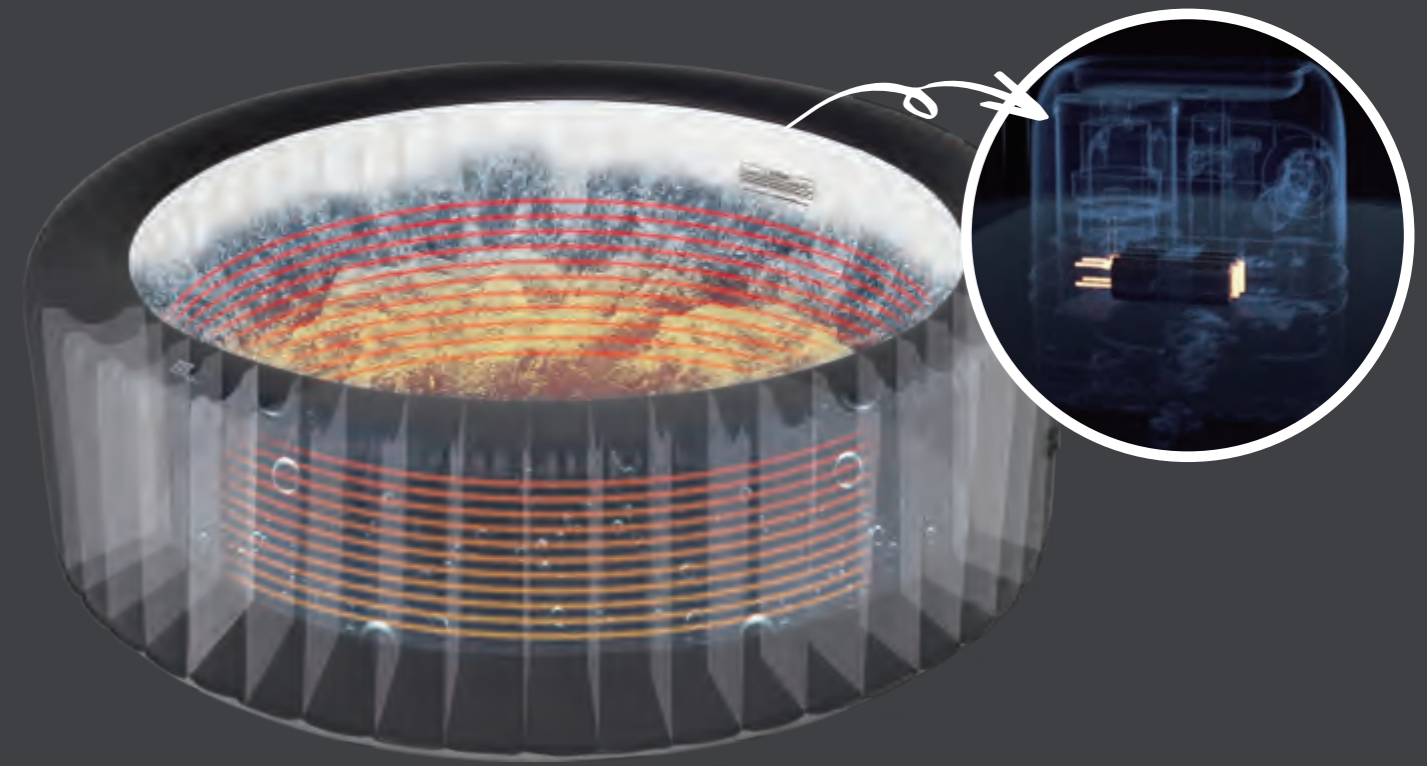

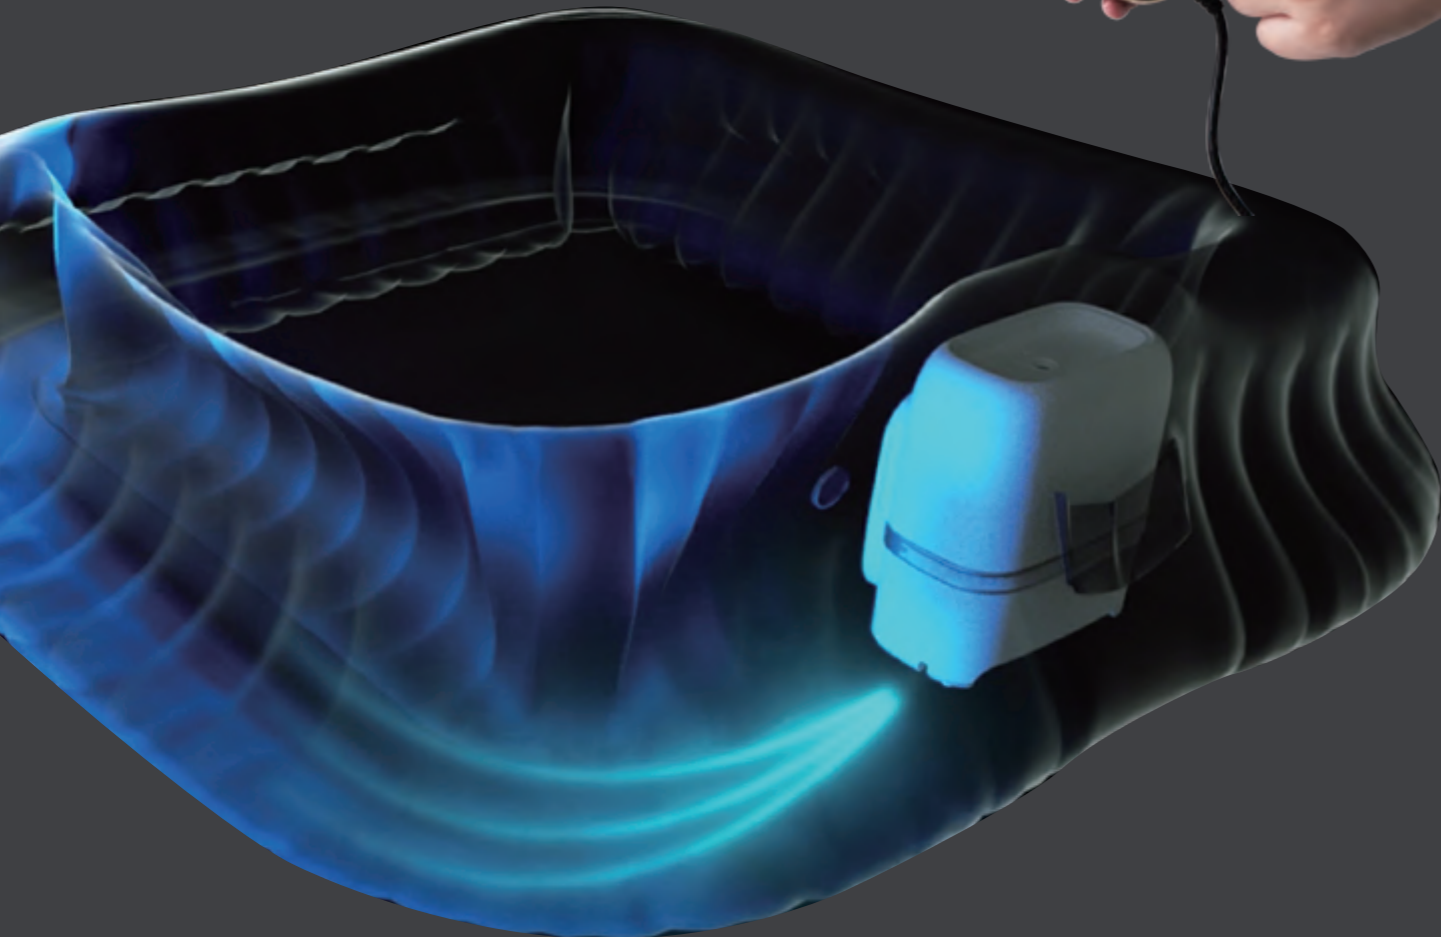

From simpler to the simplest

This is a truly innovation that makes MSpa the only inflatable hot tub that will get people satisfied before stepping into it.

From unboxed to well installed, the only thing you need to do, is to press the button for just one time. The spa will automatically start and stop inflation. You are free to leave the spa, treat yourself with a cup of coffee, send a twitter, make a phone call, or whatever you want to do.

The integrated gauge will constantly monitor the air pressure and stop inflation automatically when ideal pressure level is reached. No need to read the manometer. No risk of over inflation.

TIMER FUNCTION

- LESS WAITING, MORE ENJOYMENT

Want to get the warm and cozy MSPA just ready when you exactly want it to be? Not a problem at all. Now you can easily set the time to wake up the spa and start to heat the water.

Featuring the newly designed integrated chip, the wired controller allows user to set time to turn on the heating function 1-99 hours in advance.

ANTI-ICING SYSTEM

It is suggested not to leave or set up the spa when the outdoor temperature is below 4°C (39.2°F).

What happens if the temperature suddenly drops off but no one's at home? Don't worry, MSpa will take care of itself. When the water temperature is lower than 1°C (33.8°F), the heater runs automatically until the water is heated up to 3°C (37.4°F). This will help prevent water from freezing. The circulation system, pump and pipe will be saved.

SMART FILTRATION

Filter Cartridge Cleaning Reminder

To ensure the best quality of water in the spa, the filter cartridge is suggested to be cleaned after each use and replaced every 3-5 days. Feel hard to follow the tips each time? Don't worry there will be a reminder popping up at least once a week when spa keeps working.

TECHNOLOGY

■ HYGENIC ■

UVC

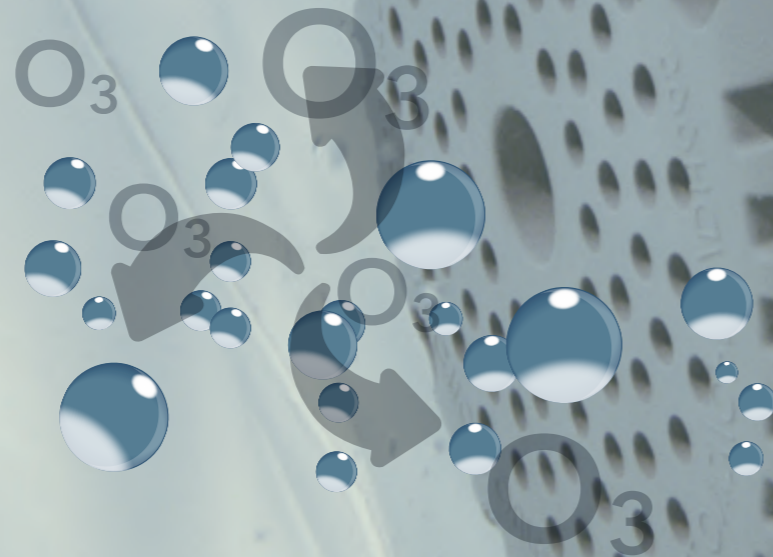

The new Mspa collections come with the built in UVC sanitizer which is able to kill more than 60 disease-causing microorganisms and pathogens while using nothing more than light.

A mini sterilization chamber with a UVC LED bead is put into the built-in control box so every drop of water in an MSpa hot tub is under 7days 24hours non-stop protection with or without people in the spa. The UVC LED will not harm your skin or eyes as it is completely sealed inside the control box.

OZONE KILLS ODORS & BACTERIA

To keep your hot tubs water clean is the top priority for us. MSPa hot tubs featured built-in O₃ OZONE GENERATOR, it's incredibly helpful to kill bacteria as well as Giardia, Cryptosporidium, parasites, fungi, molds and other virus and microbes. It is 50 times more effective than chlorine, and the effects of its action are visible 3,000 times faster. Turn on the O₃ OZONE GENERATOR before and after using a hot tub. Keep you and your water healthy for soaking! It's the smart thing to do.

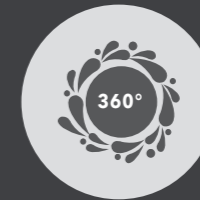

■ CONSIDERATE ■

WHISPER QUIET DESIGN

Enjoy your own peaceful moment! MSPa has developed a silent motor. The internal control box is wrapped by spa pool liner, which also helps to absorb and reduce noise.

ALL AROUND BUBBLING DESIGN

Proprietary 360-degree airjet system fills the spa with thousands of bubbles, creating a balanced, all-encompassing body massage. For high end series, the bubble speed has three level to adjust. Everyone can build their personalized experience.

PORTABLE

Featuring the built-in compact pump, MSPa is super light weighted and portable. It can be easily packed into the trunk of your car, or lifted by females.

CHILDREN SAFETY LOCK

The entire line of MSPa is equipped with the children safety lock function, allowing parents to lock the hot tubs when their children may access. Simply pressing UP & DONW button for 3 seconds to activate the function.

FABRICS & FINISHES

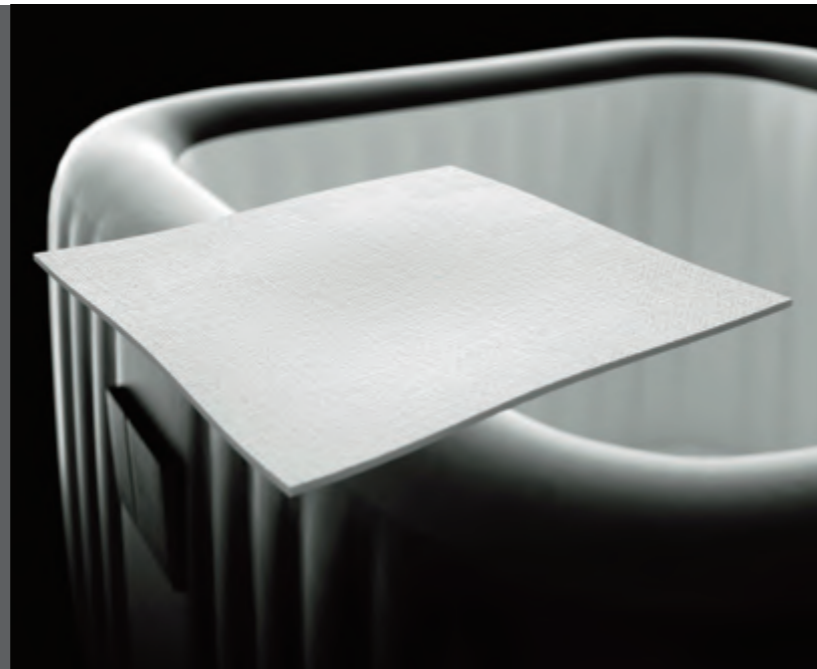

Mspa products offer an elegant and fine array of spa fabric and finish, each one conceived by our professional designers, allowing the spa owners to show their spa tub to reflect their home or life style.

ANTIBACTERIAL FABRIC

CARING AND CLEAN

Clean water is the most essential foundation of hydro massage. With tender care for its users, to further enhance the sterilization performance, antibacterial fabric is applied to the inner liner of MSpa.

The fabric can release bactericidal component, which will help reduce 99% of the reproduction of bacteria. This conforms to ISO 22196:2011

NON-SLIP BOTTOM

EVERY DETAIL MATTERS

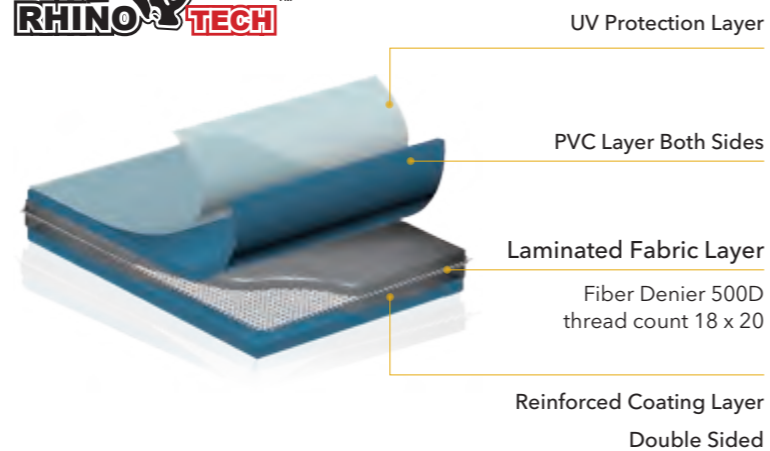

MSpa believes every detail matters, even somewhere consumers won't see. A regular bump texture material is applied to provide additional friction, to improve the grip. The non-slip bottom can also effectively reduce the greasy film and scale formed by microorganisms.

Based on those two factors, the new material bottom can prevent falling. Delight as always, safer than ever.

RHINO-TECH REINFORCED PVC COVER FABRIC

1. UV, Frost and Tear Resistant
2. Durable and Tough Reinforced PVC
3. User Friendly
4. Appealing Look
5. Eco-friendly
6. Supported by MSpa Warranty

MUSE SERIES

MUSE SERIES

Equipped with multi-individually adjustable hydromassage jets and more than one hundred effervescence air jets, the new MUSE Collection delivers one of our best hydromassage experience. Stylish elegance is provided by Micro MSpassima Rhino-tech.

ENJOY THE MOMENT

MUSE SERIES

HYDROMASSAGE JETS

The hydromassage jets, equipped in the MUSE Series, offer an invigorating water massage with adjustable directions and levels. It also improves sleep by relieving pressure on the body's joints and muscles, which reduces night-time discomfort.

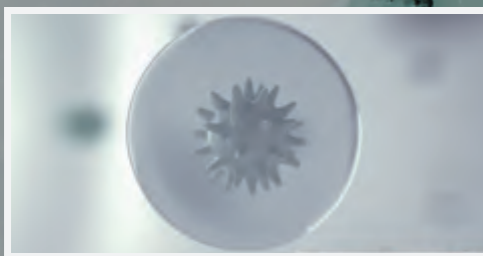

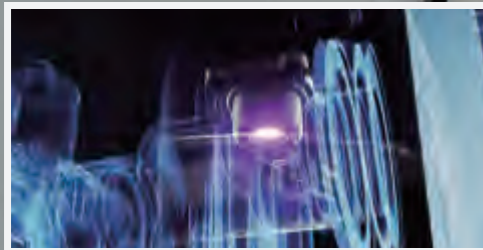

UVC & OZONE: Seamless protection

In MUSE/URBAN collection, both UVC and OZONE functions are applied. These two functions are complementary.

UVC only kills bacteria in the water flows through the sterilization chamber, while OZONE can be conveyed to the water inside the spa pool, actively contacts and kills the bacteria.

Ozone kills bacteria faster than UVC, but it cannot be activated when people is soaking into the water, while built-in UVC can always be activated.

M-ONE AUTO INFLATION

The smartest inflatable spa EVER.

Brand new experience of getting ready for a hydro-massage! Release your hands, enjoy a cup of coffee while watching your spa stand up by itself!

Press BUBBLE & UP button for inflation.

- AUTO detect the air pressure;
