

SHOWERLITE™

BRIANT INDULGENCE

The ShowerLite

is an in shower, low-voltage bathroom fog-free mirror with LED lights. Standard LEDs are 5300K (95 CRI), natural white LED's.

When turned on, the pad gently heats up, preventing condensation on the surface of the mirror. The ShowerLite installs flush with the bathroom shower surround. A low-voltage transformer, or a low-voltage system provides safe electrical current. The plug-in transformer is located below the vanity, in a soffit or attic space, an adjoining closet, or other accessible space.

Details

- Fully assembled. Heater, LED panels mounted to the back side of the mirror.
- Hi-output LED light bars with 95 CRI.
- Mirror mounts flush with the tile surround.
- LED panels are 4mm thick, provide complete and even coverage and are rated for 70,000 hours.
- **UL LISTED** for use in showers and steam showers.
- 28' of barrel connectors from the LEDs and the heater for easy, reliable wiring.
- **Made in the USA** and covered by a **5-year replacement warranty**.
