Specification Guide

Updated July 2022

Bathroom

TOILETS

TOILET FEATURES

Fully-Skirted Trapway

Gives your one-piece toilet a sleek, modern look and makes it easier to clean by reducing areas for dirt to hide.

Glazed Trapway

Allows for a smoother flush and less chance of clogging.

Easy Installation Access

Makes installing your one-piece toilet simple.

Soft-Close Seat

Helps prevent slamming noises and damage to the seat or bowl.

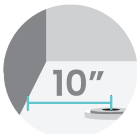

Quick-Release Seat

Allows for easy cleaning of normally hard to reach areas.

Rear Outlet

Offers a slimmer appearance and allows for easy removal of waste.

10" Rough-In

Allows for installation in any bathroom.

Dual-Flush

Has a full and a half flush option which controls water usage for smaller vs larger waste.

Single-Flush

Has a powerful flush to fully clean the bowl with every use.

Vortex™ Flush

Gives a forceful flush, keeping your bowl cleaner for longer.

ONE & DONE.

When the toilet is flushed, the trapway depressurizes creating a powerful vacuum force that pulls water and waste out of the bowl. The transfer of air throughout our patented system creates an instant siphon when flushed, requiring less water for a complete, powerful flush.

POWERFUL, VACUUM-FORCE.

Elite™ patented technology enables a toilet to create a more powerful and efficient flush by using patented technology developed to harness and transfer the power of air in the system.

FLUSH WITHOUT FUSS.

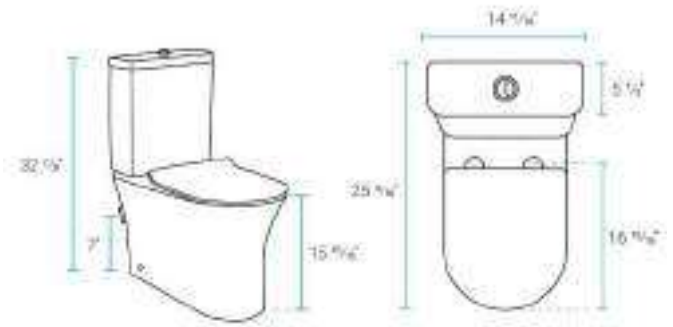

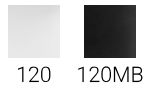

Our patented design takes advantage of minimal water usage to conceal the fill valve making for a surprisingly quiet flush.
