Your Home. Your Life.

If you're like most people, your home is an expression of who you are and what's most important. It's your center. Where you think and work, eat and entertain, rest, relax and recharge.

It's your life. And when you love your home, life is good.

At Vaxcel, we have been joining style and technology to create residential lighting people love for more than 30 years. Here, ideas don't originate in a lab. They begin with people and how they live. Here, we create something special, something meaningful.

We create lighting for life.

A woman with dark hair tied back, wearing a tan cardigan over a floral top, sits at a dark wooden table. She is looking down at a tablet in her hands. A laptop is open on the table in front of her. Above her is a modern chandelier with several circular, gold-rimmed shades. The background is a large window with a view of lush green trees.

Start Here

Just like life,
choosing the
right lighting
for your home
is a journey.

Maybe you're building from the ground up. Or maybe remodeling a room or two. Or maybe you're discovering the surprising, room refreshing impact of simply updating a few light fixtures.

Whatever your project, whatever your preferences, we're here to help. Browse our products and start the journey to a brighter, more beautiful home.

Let your journey begin.

NEW PRODUCTS

Take a look at our new products designed for indoor spaces.

Light Up Your Life.

Your home's interior is where love comes to life. Vaxcel offers a diversity of lighting that both complements any décor and helps in creating your home's signature style. From farmhouse and rustic to mid-century modern and contemporary the possibilities are endless. These various options were created with you in mind, to enjoy your home so much you'll love staying in and sharing it.

Lighting with Purpose

At Vaxcel, crafting new products always begins and ends with you. Each project starts with defining a purpose — the “why” behind the solution.

Our thoughtful, innovative designs are created with real homes in mind. These designs include purpose, artistry and styling, as well as integration of our many patented technologies.

No matter the space it might go in or style it might reflect, you can be confident the solution you choose was developed with guidance from real homeowners like you and will brighten your home in more ways than one.

The kitchen is where you spend the most time throughout the day. Whether for cooking, eating, or just hanging out, it is the hub of the home. Also, it's where most home renovations happen. Whether a quick refresh with new pendants over the kitchen island for a pop of color or a ceiling light over the sink for a statement. Here's some of Vaxcel's top selling kitchen fixtures to choose from in a variety of styles and finishes.

All items are rated either CUL or CETL and certified for both U.S. and Canada.

You're probably unaware of how much time is spent in halls, while you're coming and going, or moving between rooms. And usually, the hallway is the least thought about area when it comes to decorating. Vaxcel however believes this key space should also have an on trend feel that reflects your personal style. From wall lights to ceiling lights Vaxcel's best sellers are sure to add a little humble brag.

All items are rated either CUL or CETL and certified for both U.S. and Canada.

INDOORS

INDUSTRIAL

Weathered or distressed wood and exposed piping are a true description of the Industrial style trend. Concrete flooring in large open spaces can welcome an array of industrial inspired lighting. Accent details such as caging, brackets and dark finishes complement this style perfectly.

BARTLETT

Showcasing a unique play on geometry, the Bartlett's concentric shapes and open cage design pull you into its multiple layers of linear beauty.

MID-CENTURY MODERN

Geometric shapes, simple forms, and clean lines make the Mid-Century Modern Indoor collections unmistakable. Their use of mix-and-match materials and colors enable reimagining traditional pieces that produce a look and feel that is, well, simply back to the future.

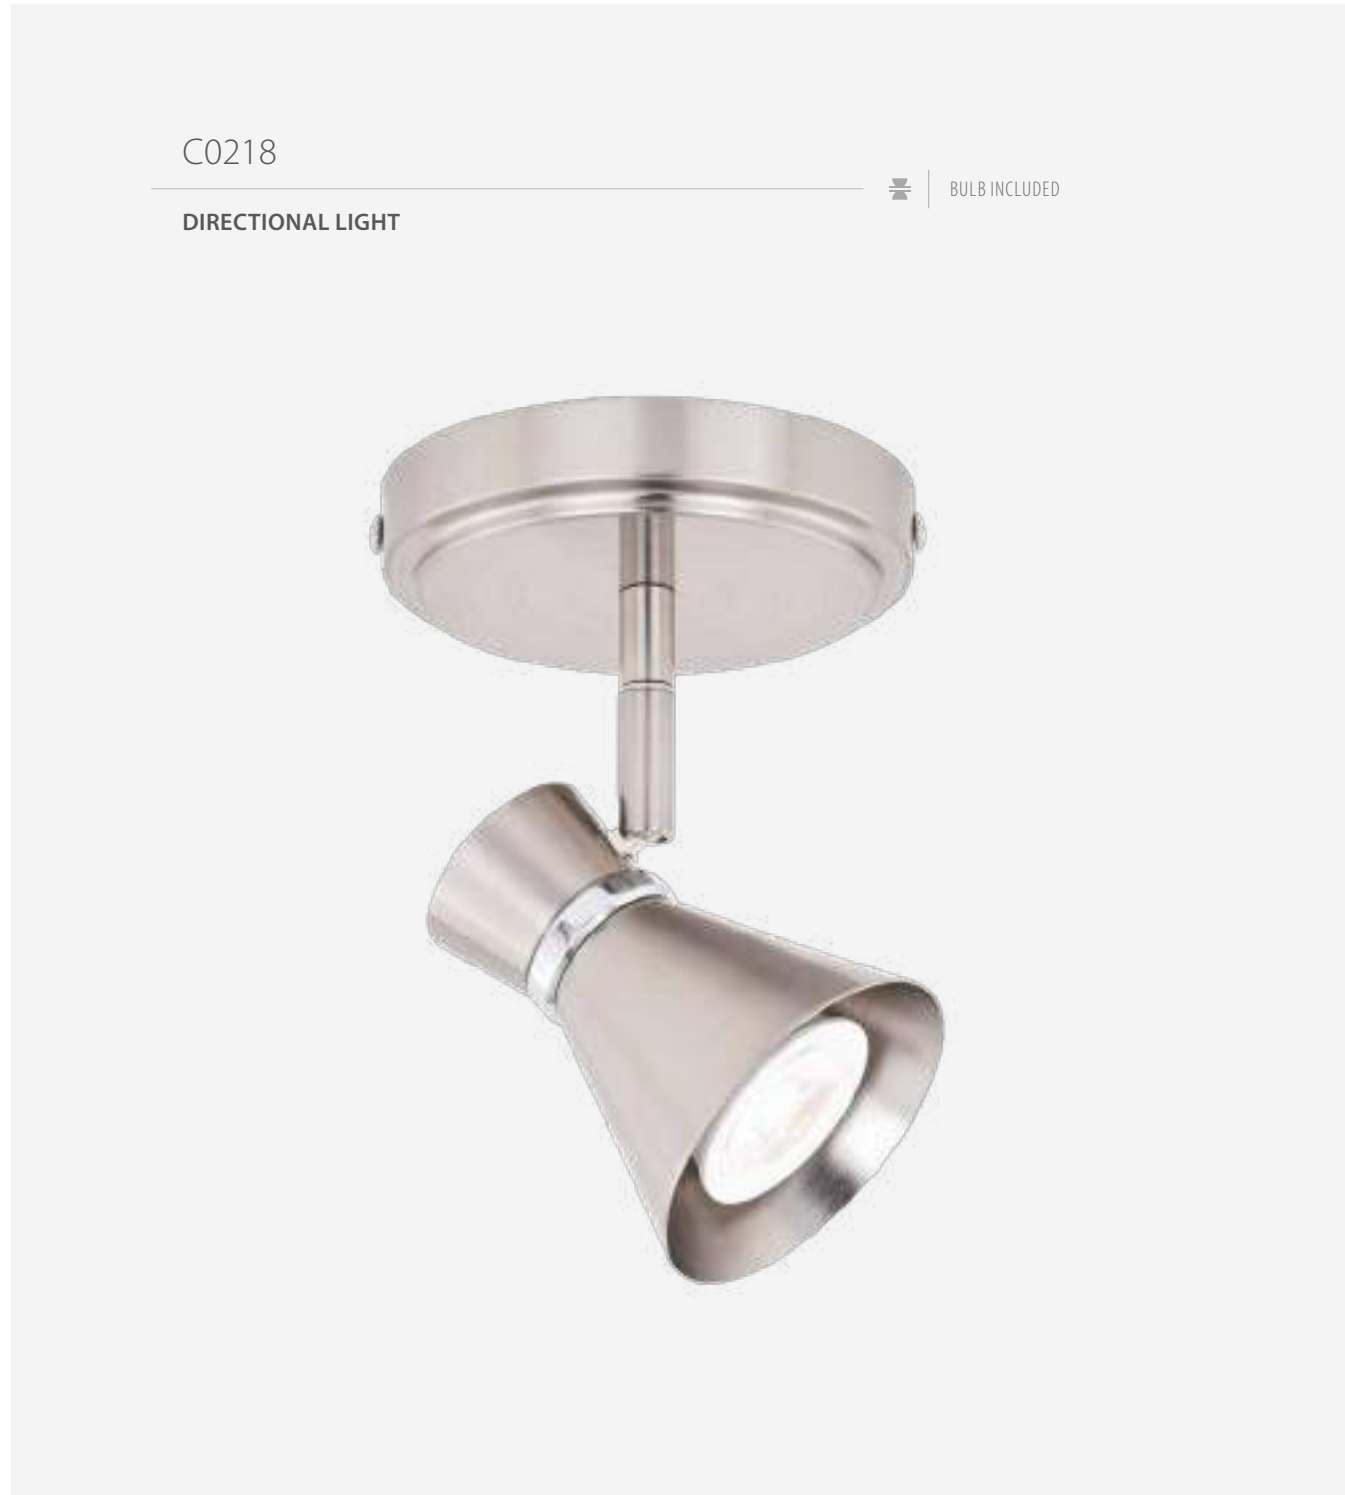

ALTO

Clean lines in linear or single mounted styles are two ways the Alto directional spot light collection shines bright.
