OUTDOORS

COASTAL

Familiar nautical style lanterns or more nautical inspired designs can all represent your coastal style preference. These outdoor collections normally blend rich dark finishes with simple yet striking glass. Coastal outdoor collections will have you imagining you are seaside even in urban locations.

BAR HARBOR

The Bar Harbor collection is an updated take on a familiar nautical lantern style. Reminiscent of a quaint seaport town, this coastal collection uniquely blends bronze cage framing with clear seeded glass.

TECHNOLOGIES

dualux®

Dualux decorative lanterns and security lights enhance the beauty and safety of your home. The dual-level lighting automatically provides bright illumination in the early evening, dims later at night to save energy, and then delivers bright illumination whenever motion is detected.

dualux[®]

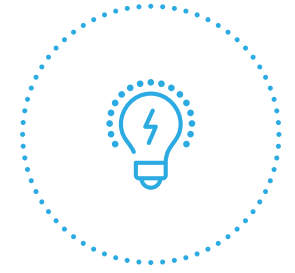

DUAL-LEVEL
TECHNOLOGY

Highlighting your
home's beauty

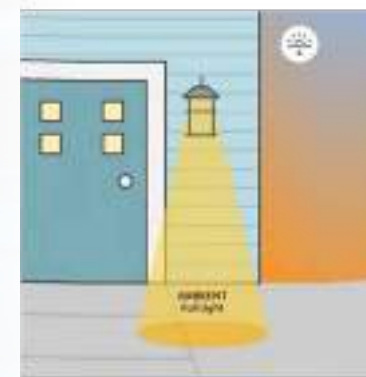

Keeping your
home secure

Illuminating
more efficiently

Dualux dual-level technology is outdoor lighting made smarter – brighter at dusk, dimmer at night, brightening instantly when motion is detected.

Early Evening: Bright Illumination

With its built-in photocell bright illumination turns on in the early evening. You can choose the duration between 0, 3, or 6 hrs. Ideal for welcoming guests, grilling, and other outdoor activities.

Late Night: Dim Illumination

You get energy-saving dim illumination for the rest of the night. Ideal to accent your home's architecture and avoid disturbing neighbors with bright light. This dim illumination will continue until the photocell captures daylight.

Late Night: Motion Detection

For added security, the on-demand bright illumination is triggered when motion is detected. Perfect when arriving late at night or to discourage unwanted visitors.

TECHNOLOGIES

instalux^(®)

It's as simple and convenient as a wave of your hand. With Instalux, you create the perfect lighting using simple hand motions without having to walk across the room to a wall switch.

instalux[®]

MOTION SENSOR
TECHNOLOGY

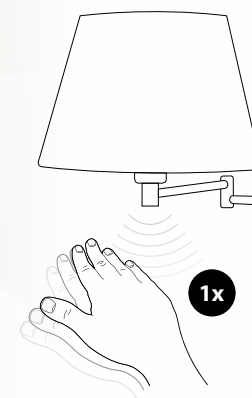

What if turning off your bedside light was as effortless as waving your hand?

Instalux wall lights allow you to create the perfect lighting environment day or night using simple hand motions without getting up to flip a switch. Designed for use in bedrooms, living rooms, hallways, reading rooms — anywhere you need convenience in touch-free wall lighting.

FEATURES:

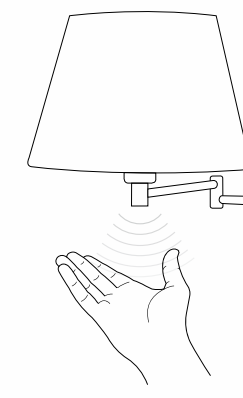

- **Motion-Controlled Operation:** for on/off, dimming, and sleep mode functions
- **Flexible installation configurations:** plug-in or hardwired
- **Adjustable Dimming** from task to ambient
- **Sleep Mode** gradually dims light, providing relaxing transition for bedtime
- **Compatible** with most dimmable bulbs
- **Variety** of models and finishes available

EASY TO USE:

TURNING LIGHTS ON/OFF

Wave hand under sensor once to turn light on or off.

DIMMING LIGHTS

Hold hand under sensor to adjust brightness

ACTIVATING SLEEP MODE

Wave hand under sensor twice. Light will flash, then gradually dim-to-off in 5 minutes

U.S. PATENT: 8947000

| 5-YEAR LIMITED WARRANTY

LINEAR CHANDELIERS

Named after their long and narrow rectangular profile, these hanging chandeliers add a fresh look to dining room tables, kitchen island areas and even games rooms. They're designed in various materials. From flowing glass or crystal to rustic elements; or even minimalist metal cages. Regardless of style, there is lighting designed to best suit your needs.

CHANDELIERS & PENDANTS

Chandeliers and pendants are usually used interchangeably. These are larger pieces that can be used in any area of your home. Typically a chandelier or pendant can be used above a dining table, in a living room space or foyer. The overall shape and style will determine where to place your chandelier or pendant light.

MINI PENDANTS

Mini pendants are hanging lights, smaller than 10" wide. These pendants tend to be used in a grouping above a kitchen island or dining area. However, they can also be used stand-alone above kitchen sinks or bathroom spaces. The great part of these fixtures is that you can mix and match styles and colors to create the perfect look.

CEILING MOUNTS

Ceiling mount lights include semi-flush, flush mounts and fixtures designed specifically for low ceiling spaces. These are also known as wide-shallow ceiling lights, with a height of less than 18" and a width between 18" and 36", designed as an alternative for living spaces with short ceiling heights where pendants and chandeliers hang too low.

WALL LIGHTS

Wall lights and sconces take up minimal space, yet when strategically placed can visually brighten and open-up rooms. These adaptable lights can cast a warm and inviting glow in the master bedroom or bath, when framing a fireplace or entryway and even in an outdoor seating area, if damp rated.

BATHROOM LIGHTS

Bathrooms are critical to the well-being of our everyday lives. Vanity lights set the style and ambiance to any bathroom while also serving an important function in helping when getting ready for or winding down from the day.

EXPRESS YOURSELF

What's Your Style?

As a leading designer and maker of inspired, innovative lighting for the home, our first question always relates to style.

What is your style? It evokes a wide range of responses, from an immediate, confident answer to a wide-eyed, nervous, "Uhhh..."

Defining your style is a process, and it should be fun. Whatever your style, Vaxcel has a lighting solution designed to express—and enrich—your life.

01

DISCOVER

Complete the style quiz at vaxcel.com. It's fun, quick and easy.

02

CREATE

Create a lighting wish list from our curated Vaxcel collections.

03

SHOP

Take your lighting wish list to your local Vaxcel showroom.

Vaxcel helps you define and express your style in three easy steps.
