

KONKRETUS

Made in the Tropic.

All of our designs are original creations and are protected by intellectual property rights. 2022

It all starts with a material, we transform it with design & create unexpected pieces.

Konkretus: a brand that incorporates design into its structure of thought and action. We believe in the power of design as a tool for transformation. We reinterpret concrete to give the world sophistication and sobriety in each piece.

We create products to build a lifestyle that accompany everyday moments within your home and city based on design, fashion, art and well-being. Pieces that attract the designer that we all carry inside.

HOME

**It all starts simple.
Natural.
Raw.
We start as dust.**

Then, we transform.
Like all materials, ideas, stories ...
even life itself.
We evolve, we change, we take shape.
From dust to liquid ... from liquid to stone.
This process: it's what makes us unique.

What to expect.

NATURAL MATERIAL

Concrete is a material that by nature absorbs liquids as well as many other materials (marble, stone, wood, etc.) For this reason our sinks are **sealed** with the best sealant on the market.

HANDMADE

No two pieces are alike. Each piece is hand made, so there are differences between them. Each sink is **unique**.

TONES

Colors in concrete are rarely solid and homogeneous. In each piece there will be different shades that create a special texture in the piece.

PORES

Pores are characteristic of concrete.

WEIGHT

A concrete sink is not comparatively heavier than a sink made in any other material.

KÖNKRETUS
HOME

A dark, atmospheric photograph of a night sky. A prominent, large, circular blue bokeh light is centered in the upper right quadrant. The background is filled with numerous small, bright white and yellow stars, some of which are blurred into long, faint trails, suggesting a long-exposure shot. The overall color palette is dark, with deep blues and blacks, punctuated by the warm tones of the stars and the cool blue of the bokeh light.
