

## AromaSteam Steamhead

Round 103937, Square 104040, 104104

- Even distribution of steam while remaining cool to the touch
- No field assembly required
- No moving parts
- Integrated aromatherapy oil well for in shower use

### Round & Square Steamhead Installation (1/2" NPT)

**IMPORTANT:** Do not disassemble steamhead. MrSteam's steam head is shipped fully assembled and requires no additional assembly.

**! CAUTION** Because the steamhead and direct steam emissions are very hot, locate the steamhead where incidental contact by bather with the steamhead or direct steam emission cannot occur.

**NOTE:** A 1.5" clearance hole around the steam pipe is needed to mount the steamhead.

Locate steamhead 6-12 inches above floor, except for:

- Tub/shower enclosures, install 6 inches above tub top edge.
- For enclosures with acrylic or other non-heat resistant flooring install Acrylic Shield Part Number 103938/10398SQ

**IMPORTANT NOTE:** To preserve steamhead finish, do not use wrench or other tools to tighten. DO NOT use abrasive cleansers or chemicals. Use only water with mild soap and a non-abrasive sponge.

**! CAUTION** Consult with supplier of acrylic, fiberglass and other non-heat resistant enclosures for recommended steamhead location. Use Acrylic Shield PN 103938/10398SQ. See instructions provided with steam shield. (An acrylic shield is not available for the iSteam steamhead.)

**FOR ILLUSTRATIVE PURPOSES ONLY. IMPORTANT NOTE: FOR SAFE AND TROUBLE FREE INSTALLATION**
