

WarmlyYours

# TempZone® Flex

## Check List

### Materials and Tools Required:

---

- WarmlyYours TempZone Heating Rolls

---

- Thermostat with Sensor Probe Wire (if applicable)

---

- Custom Design Layout (provided free with quote)

---

- Digital Ohm Meter (required for completion of warranty registration card)

---

- Circuit Check (sold separately)

---

- Scissors

---

- Staple Gun or Hot Glue Gun (concrete applications)

---

- Duct Tape or Box Tape (we recommend 3M 6969 Hi-Temp Duct Tape)

---

- Latex-Portland Cement (acrylic or latex modified thin-set mortar)

---

- Plastic Notched Trowel

---

- Self-leveling Cement

---

- ¼" Cork or 3/16" CeraZorb® Concrete Insulating Underlayment (WarmlyYours offers both of these products, which are recommended when installing over concrete. This is recommended to increase efficiency, but is not mandatory)

---

- Single Gang Electrical Box/es

---

- Conduit and Hardware (if required)

---

- Licensed Electrician

---

- Available Breaker Box Opening/s for Powering the Floor
