Voice Control

“Open toilet lid”

“Rise seat temperature”

“The water temperature is second ”

Control functions
with your voice
and keep your
hands clean

UV Sterilization

UV Sterilization automatically begins after the toilet lid closes and can sterilize 99.9% of bacteria.

Infrared Therapy

Generates heat and improves circulation, skin purification, and pain relief.

Efoam

360° Foam Shield

The foam barrier locks in bacteria and odors, eliminates splashing, and keeps the bowl cleaner

Anti-Odor
Trap odors in the water

Anti-Bacteria
Foam covers the entire water surface to trap all bacteria

Anti-Stick
Keep the bowl cleaner for longer

Anti-Splashing
Foam traps water and keeps it from splashing on you
