

CARE AND MAINTENANCE

DIAMANTE SURFACES

Simii's Diamante surfaces provide a durable surface that is easy to maintain using routine care.

To clean, use a damp cloth or sponge and a mild soap detergent. Rinse thoroughly with warm water and wipe dry.

Difficult stains such as coffee or tea can be removed using a mild household cleaner the following cleaners have been tested and approved for use

- Windex Multi-surface Disinfectant
- Windex All Purpose Cleaner

Many commercially available products contain substances that may damage or discolor the Diamante Surface. ABRASIVE CLEANERS SHOULD NOT BE USED. Do not allow harsh materials to remain in contact with the Diamante surface.

Examples of these are as follows:

- Chlorine Bleach
- Hydrogen Peroxide
- Oven Cleaners
- Hard Water Stain Removers
- Metal cleaners and Polishes
- Tub and Tile Cleaners
- Drain Cleaners

**Prolonged exposure to bleach will cause discoloration*

If you would like more information on the above or have any questions, please feel free to contact Simii Design at 616.879.0078 or via email at info@simiidesign.com.

CARE AND MAINTENANCE

LAMINATE & PAINTED SURFACES

To clean, use a damp cloth or sponge and a mild soap detergent. Rinse thoroughly with warm water and wipe dry.

Difficult stains such as coffee or tea can be removed using a mild household cleaner the following recommended household cleaners

- Windex Multi-surface Disinfectant
- Windex All Purpose Cleaner

Acidic or abrasive cleaners can damage laminate or painted surfaces; do not use them. If you spill an abrasive cleaner, wipe it up immediately and rinse several times with water. Avoid use of steel wool and other abrasive pads will cause damage to laminate or painted surfaces.

**Prolonged exposure to bleach will cause discoloration*

If you would like more information on the above or have any questions, please feel free to contact Simii Design at 616.879.0078 or via email at info@simiidesign.com.

CARE AND MAINTENANCE

PET PANELS

Routine Care for Dust & Dirt Removal

If there is visible dust or dirt embedded in the material, use a bristle brush to loosen it. Avoid excess pressure when using. Vacuum any loose dust and dirt thoroughly from the material.

Routine Care for Spills

To clean any spills. Pat dry as soon as possible to avoid liquids from absorbing into the material. Apply a mild clear detergent or soap and water with a hand spray application. Avoid over-soaking the surface. Allow the surface to air dry.

Routine Care for Stains

To remove any stains; Saturate a lint free cloth with a clear, mild detergent or soap and water solution. Gently pat the stain starting from the outer edge and moving inward. If required, get another cleaning cloth and repeat the procedure until there is no more transfer of dirt to the cloth. Once the stain is removed, soak up all remaining cleaning solution with a dry cloth. Use a clean cloth or sponge soaked in water to remove any other residue. Allow the surface to air dry.
