

ALL SHAPES OF LIFE

Introducing Pilgrim's Spring 2024 collection: Shapes of Life

The new collection, 'Shapes of Life,' represents the freedom to be you, to follow your unique path, and to embrace endless possibilities. It's about living authentically, in sync with your values, and redefining how you shape your life. Cause life is all about change.

Pilgrim's Spring 24 collection draws inspiration from the universe surrounding us. Guiding you to follow your heart, dream big, and extend the perspective of what is possible. Rooted in Pilgrim's Scandinavian universe, the collection combines powerful statement pieces with new shapes and colours, creating a new take on jewellery and underlining your personal choices.

The Spring 24 collection smashes old thinking patterns and expands horizons. Telling you to make deliberate choices and break away from the norm cause you only live once, and it's up to you to craft your own story. It's all about turning it upside down, shaking things up, and throwing away your old playbook. The collection is getting rid of the idea of "one size fits all" and invites you to show off your true colours and to stay true to yourself.

Boundaries blurred, limits shattered – prepare for a world where everything's on the table. So, get started. The story is yours.

The Spring collection launches on January 18, 2024.
