

# PILGRIM

## Celebrating All Shapes of Life

### Introducing Pilgrim's Summer 2024 collection: Shapes of Life

The 'Shapes of Life' collection is a celebration of individuality, of shaping your own path and embracing limitless possibilities. The collection encourages living authentically, aligning with your values, and reshaping your life in a world of constant change.

Inspired by the universe surrounding us, the 'Shapes of Life' collection is an ode to shaping your life exactly as you want. By following your heart, dreaming big and challenging the ordinary, anything is possible. This season, it's all about disrupting old ways of thinking and expanding the perspective of what is possible. The collection eliminates the idea of 'one size fits all', empowering you to make your own choices, stand up against the norms and stay true to yourself. Because the story is yours to craft.

Anchored in Pilgrim's Scandinavian roots, the collection presents a beautiful mix of chunky statement pieces, organic structures, pearls and new colours. A perfect blend of seasonal must-haves, timeless classics and always on-trend items for the summer to come. Let your imagination run wild, show your true colours and feel free to express who you are.

Wherever you go.

**The Summer collection will launch on April 4, 2024.**
