

# PILGRIM

## MIX, MATCH AND STACK

This season, it's time to unleash your creativity with stackable rings. Designed to be mixed, matched and stacked, they empower you to curate a look that is uniquely yours.

## MIX METALS

Create a personal look by mixing your metals as you want. Mix your silver and gold rings to create an on-trend and sophisticated look. Turn every combination into your own and explore the possibilities that arise when different metals unite.

## UNLEASH YOUR CREATIVITY

It's all about unleashing your creativity. Curate your own ring stack and play with sizes, shapes and materials. Go for a simple look and pick two or three rings, or create a vibrant version by adding even more. Mix and match the rings - everything is allowed.
