Water Tank Capacity: 1.19gal / 4.5L

Rated Power: 25W at cool mist mode, 125W at warm mist mode

Dimension: 210 x 180 x 330 mm / 8.27 x 7.09 x 12.99 inch

Weight: 1805g / 3.98 lb

IMPORTANT SAFEGUARDS

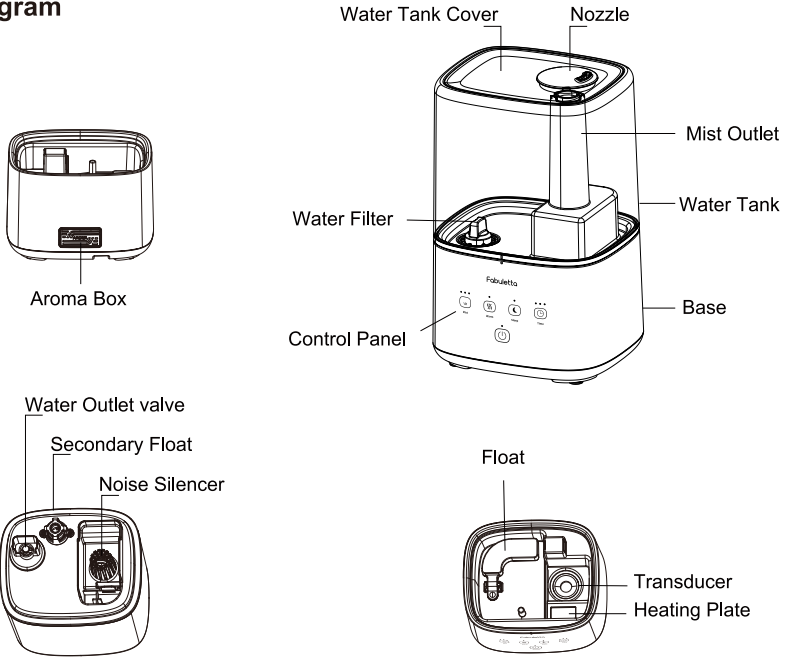

To reduce the risk of fire, electric shock, or other injury, when using your humidifiers, basic safety precautions should always be followed. Read all instructions before using.

1. Place the humidifier on a dry, flat, stable surface. Do not place the humidifier directly on carpets or rugs.
2. Place the humidifier and cord so that the humidifier will not be knock over.
3. Do not place the humidifier on or near heat sources such as radiators, heated ovens, etc.
4. Close supervision is necessary when the humidifier is used by or near children
5. Do not fill the water tank above the MAX level.
6. Only fill the tank with cold and clean water. Never fill the humidifier with other liquids.
7. Do not add essential oils or other foreign objects into the water tank or base chamber.
8. Do not cover the nozzle while the humidifier is on.
9. Do not attempt to inhale the mist directly from nozzle.
10. Always unplug the humidifier when it is not being used and before cleaning. Allow to cool before cleaning.
11. Do not immerse cord, plug, or base in water or other liquids.
12. Do not use the humidifier for other than intended use
13. Do not use the humidifier if it is malfunctioning, or if any part, including the base, water tank, cord, or plug, is damaged in any way. Do not try to repair it. Contact Consumer Support.

Timer Button		<ul style="list-style-type: none"> Press to choose a time setting: 4hours, 8hours or 12hours Press and hold for 2 seconds to exit timer function

GETTING STARTED

Before First Use

1. Remove all packaging. Remove the adhesive tapes between the tank and base. Take the water tank off of the base, remove the tape and foam on the float. [Figure 1.1]
2. Put the humidifier on a flat, waterproof surface. The surface should be at least 4 feet (1.2 m) away from your bedside and 6 inches (15 cm) away from the wall. [Figure 1.2]

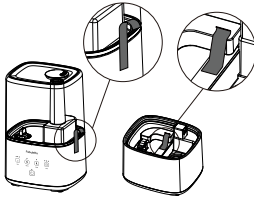

Figure 1.1

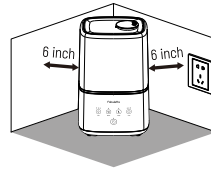

Figure 1.2

3. Rotate the nozzle to keep mist directed away from any walls, furniture, bedding and appliances. [Figure 1.3]

Note: DO NOT place the humidifier on the towels, carpets, rugs, or any surfaces with fibers. This may block the air inlet at the bottom of the humidifier and cause malfunctioning. [Figure 1.4]

Figure 1.3

Figure 1.4

Filling and Refilling

1. Take out the water tank cover by holding the nozzle and pulling upward.
2. Fill the water tank with cold water. We recommend using purified water. **Avoid using tap water**, because the mineral content is too high and will create white dust around the humidifier.
3. Make sure the water tank is properly placed on the base by aligning the indicator mark. [Figure 2.1]
4. Place the water tank cover back on the tank. Make sure the nozzle align with the mist tube. [Figure 2.2]
5. Wipe off any excess water on the tank and base.

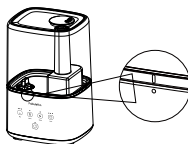

Figure 2.1

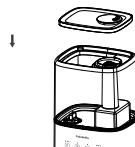

Figure 2.2

GETTING STARTED

- Note:**
- Do not fill above the MAX line. The max capacity of the water tank is 1.19gal/4.5L. Do not fill with hot water or other liquids.
 - Do not add water through the mist tube, or the inner chamber. [Figure 2.3]
 - Do not add essential oils into the water tank or base chamber. Please add through AROMA BOX.

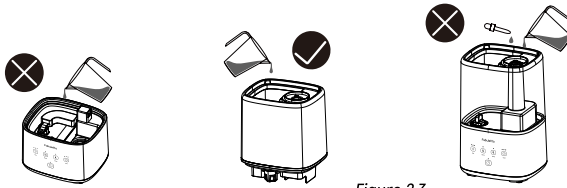

Figure 2.3

Using The Aroma Box

Your humidifier can be used for aromatherapy. Follow the below instructions to add essential oil.

1. Gently push the aroma box at the back of the base and pull it out. [Figure 3.1]

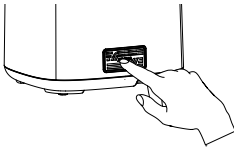

Figure 3.1

2. Put 10-15 drops of essential oil on the aroma pad. [Figure 3.2]

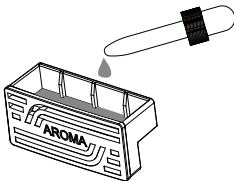

Figure 3.2

3. Replace the aroma box into the humidifier.

- Note:**
- The aroma is intended to be light. This humidifier is not an aroma diffuser.
 - For best results, we recommend using pure essential oil.
 - The aroma pads can be cleaned and reused after diffusing essential oils.

OPERATING YOUR HUMIDIFIER

Turn On Mist

1. Plug in the humidifier. All indicators will light on for 1 second.
2. Press  to turn on the humidifier. The humidifier will start on the medium mist level (Level 2).
3. Press  repeatedly to choose your desired mist level. Optionally you can also press  to turn on the warm mist.

Note:

- If there is no water in the tank, all indicator lights will flash 10 times, and the humidifier will turn off.
 - If you take the water tank off the base during working, the humidifier will turn off.
 - The most comfortable indoor humidity level is between 30% and 50%. When your room has reached your desired humidity level, turn your humidifier to a lower setting, or turn it off.
4. Rotate the nozzle to adjust the direction of the mist. Keep the mist directly away from walls, furniture, bedding and appliance. [Figure 4.1]

Figure 4.1

Sleep Mode

Sleep Mode turns off all indicator lights while you sleep. It won't bother you at night with bright lights.

1. First to turn on the humidifier.
2. Press  button, the orange indicator lights turn on. After 3 seconds, all indicator lights turn off, the humidifier go into sleep mode.
3. To exit sleep mode, press any button to wake up the machine from sleep mode, and then press  button again to cancel Sleep Mode. Press  button to turn off the humidifier.
4. Optionally, you can choose the mist level, turn on/off warm mode or set timer in sleep mode.

Notes:

1. Please keep the humidifier at least 4 feet (1.2 m) away from your bedside
2. We recommend using low cool mist setting in sleep mode.
3. The noise level increases along with the warm mist turning on.

Timer Function

1. Press  repeatedly to choose a time setting: 4 , 8 , 12 hours.
2. Once a time was set, the timer will start.
3. The humidifier will automatically power off once the timer is finished.
4. To exit the timer function, press and hold  for 2 seconds.

CARE & MAINTENANCE

Note:

- All maintenance should be done in the kitchen or bathroom on a water resistant surface near a faucet.
 - **DO NOT** wash any components of this humidifier in the dishwasher.
 - If not using the humidifier for 1 week or longer, do not leave water inside. Clean and dry the humidifier instead.
1. Turn off and unplug the humidifier.
 2. Remove water tank from base. Empty water from water tank and base.
 3. Add 2-3 cups of white vinegar to water tank. Replace the tank cover and swish the vinegar around the tank.
 4. Place water tank on base. Soak for 15-20 minutes.
 5. Remove the water tank from base, pour out any vinegar solution. Use the soft cloth and the cleaning brush to clean all parts . [Figure 5.1]
 6. Rinse the tank, tank cover and base chamber with room temperature water.
 7. Remove the water filter from the tank by rotating it counterclockwise and rinse it. [Figure 5.2]
 8. Flip the water tank over. Remove the noise silencer by pressing the release tab and gently pulling it off. [Figure 5.3]

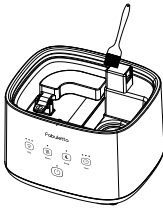

Figure 5.1

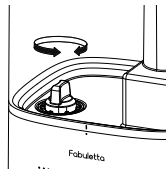

Figure 5.2

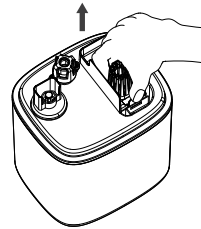

Figure 5.3

9. Remove the float from the base chamber by pulling the shaft out from the float brackets and rinse it.

Note:

One side of the brackets is open to allow removal and installation. [Figure 5.4]

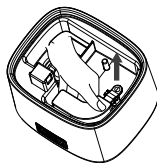

Figure 5.4

10. Rinse all parts until any vinegar smell is completely gone.
11. Dry all parts with a cloth. Make sure all parts are completely dry before reassembling or storing.

TROUBLESHOOTING

Problems	Actions / Solutions
Humidifier doesn't turn on	Make sure the plug is securely inserted into the outlet
	Insert the plug into a different outlet for checking
	Fill the water tank and placed properly onto the base
Little or no mist comes out	Please check if too much water in the base chamber. Make sure the water level in the base chamber not exceed the MAX line
	Please check the air inlet on the bottom of the base is not blocked. The humidifier should not be set on carpet or other surfaces that may block the air inlet
	The water temperature may be too low. Turn on the warm mist and let the humidifier run for a while, then adjust to the desired setting
Humidifier uses water too quickly	If turn on the warm mist, the humidifier will run out of water faster
Humidifier makes a loud noise	Set mist level to a lower setting
	The noise level will increase when turn on the warm mist
White dust appears around the humidifier	Clean the humidifier
	Please use purified or distilled water to fill the humidifier. Avoid using water with high mineral content
Water leaks from the humidifier	Make sure to place the humidifier on a flat, level surface
	Make sure the silicone sealing ring around the water outlet valve is secure
	Wipe any excess water off the top and bottom of the base
	Do not shake the humidifier.
	Do not remove the water tank from base when it is full
	Avoid running the humidifier in a room with over 60% relative humidity
Condensation forms around humidifier or windows	Humidity may be too high. Turn down the mist level, turn off the humidifier, or open a door or window to the room
Mold grows inside the humidifier	Clean the water tank and base chamber regularly
Essential oil has little or no smell	Add more essential oil. For best results, use pure essential oil

WARRANTY

The One-Year Limited Warranty is valid for products purchased from our Fabuletta only, starting from the date of original retail purchase against defects in quality and materials under normal, non-commercial use. According to the requirements outlined in this instruction manual, subject to the following conditions and exclusions.

What Is Covered

The repair or replacement of your Fabuletta appliance if your Fabuletta appliance is found to be defective due to faulty materials, workmanship or function within one year of purchase or delivery (if any part is no longer available or out of manufacture, Fabuletta will replace it with a functional replacement part). This warranty provides, at no extra cost to you, all labor and parts necessary to ensure your machine is in proper operating condition during the warranty period.

What Is Not Covered

Under your Fabuletta guarantee, Fabuletta shall not be liable for costs of repair or replacement of a product incurred as a result of: Accidental damage, faults caused by negligent use or care, misuse, neglect, careless operation or handling of the Fabuletta appliance which is not in accordance with this Fabuletta Operating Manual. Machines purchased from an unauthorized dealer. Use of parts and accessories other than those produced or recommended by Fabuletta. Repairs or alterations carried out by unauthorized parties or agents. Use of the machine other than for normal domestic purposes within the United States, e.g. for commercial or rental purposes.

Warranty Service

If you have a query about your Fabuletta appliance, please contact the Fabuletta customer service email: support.us@fabuletta.com Please inform us your model name/number, purchase date, order number, machine problem and your requirement. Your model number can be found on rating plate. Please keep your purchase receipt in a safe place to ensure you have this information. Service under this warranty will not extend the period of this warranty.
