Here's how to play your HOHNER

Hold your Hohner with one hand at each end Hold it with pride it'll be a good friend

2 See that the numbers are on top facing you The music holes now are in very good view

Holes 4-5-6-7
you will see
Play the
notes of the
song or the
melody

Place your tongue over 1-2-3 And hole 4 will blow free

5 First blow into 4 and that is note C Draw out of 4 and you have note D

6 Blow into 5-it's E and it's fun Draw out of F--and your music's begun

For G you blow 6 and you draw out to get A Then for B you draw out of 7-Hooray!

You're now up
to C to complete
your ruk run
You blow into
7—that's
C—your
scales done

Practice to blow and to draw till you know You've got it down pat and You're ready to go

Now lift your tongue on and off the first three You'li gel your chords to back your melody

Just use this
"tonguing"
whenever
you play
And you'll
have wonderful
music the
Hohner way

Blow the up arrow Draw for down one And the length of the length of the arrow Gives that af the one
