11.5   Suspected Carcinogen:   This product contains may contain   Suspected Carcinogenic to humans, but is listed as Group 3	11.3	Acute Toxicity:	
Carcinogen by IARC.	11.4	Chronic Toxicity:	
This product is not reported to produce reproductive toxicity in humans.   Mutagenicity: This product is not reported to produce mutagenic effects in humans.   Embryotoxicity: This product is not reported to produce embryotoxic effects in humans.   This product is not reported to produce embryotoxic effects in humans.   Reproductive Toxicity: This product is not reported to produce reproductive effects in humans.   Reproductive Toxicity: This product is not reported to produce reproductive effects in humans.   This product is not reported to produce reproductive effects in humans.   This product is not reported to produce reproductive effects in humans.   Productive Toxicity: This product is not reported to produce reproductive effects in humans.   This product is not reported to produce reproductive effects in humans.   This product is not reported to produce reproductive effects in humans.   Productive Toxicity: This product is not reported to produce reproductive effects in humans.   This product is not reported to produce reproductive effects in humans.   This product is not reported to produce reproductive effects in humans.   Productive Toxicity: This product are as follows:	11.5	Suspected Carcinogen:	This product contains may contain <u>Isopropyl Alcohol</u> , which is not carcinogenic to humans, but is listed as Group 3 carcinogen by IARC.
Embryotoxicity: This product is not reported to produce embryotoxic effects in humans.  Teratogenicity: This product is not reported to produce teratogenic effects in humans.  Reproductive Toxicity: This product is not reported to produce reproductive effects in humans.  Itritancy of Product: See Section 4.2  Iliritancy of Product: See Section 4.2  Ilipsical Exposure Indices: NE  Treat symptomatically.  Treat symptomatically.  12.1 Environmental Stability: The components of this product will slowly degrade over time into a variety of organic compounds. Specific environmental data available for the components of this product are as follows:  Isopropyl Alcohol: Log K <sub>OW</sub> = 0.05-0.14. Isopropyl alcohol occurs naturally; it is generated during microbial degradation of plant and animal wastes. When released on land or water, it is apt to volatilize and biodegrade. The estimated half-life in water is 5.4 days. Isopropyl alcohol is not expected to bioconcentrate.  12.2 Effects on Plants & Animals: There are no specific data available for this product.  Product is expected to rapidly disperse in the aquatic environment.  13.1 DISPOSAL CONSIDERATIONS  Review current local, state and federal laws, codes, statutes and regulations to determine current status and appropriate disposal method for the ingredients listed in Section 2. Any disposal practice must be in compliance with local, state, and federal laws and regulations.	11.6	Reproductive Toxicity:	
Teratogenicity: This product is not reported to produce teratogenic effects in humans.  Reproductive Toxicity: This product is not reported to produce reproductive effects in humans.  11.7 Irritancy of Product: See Section 4.2  11.8 Biological Exposure Indices: NE  11.9 Physician Recommendations: Treat symptomatically.  12. ECOLOGICAL INFORMATION  12.1 Environmental Stability: The components of this product will slowly degrade over time into a variety of organic compounds. Specific environmental data available for the components of this product are as follows:		Mutagenicity:	This product is not reported to produce mutagenic effects in humans.
Reproductive Toxicity: This product is not reported to produce reproductive effects in humans.  11.7 Irritancy of Product: See Section 4.2  11.8 Biological Exposure Indices: NE  11.9 Physician Recommendations:  12. ECOLOGICAL INFORMATION  12.1 Environmental Stability: The components of this product will slowly degrade over time into a variety of organic compounds. Specific environmental data available for the components of this product are as follows:   Isopropyl Alcohol: Log Kow = 0.05-0.14. Isopropyl alcohol occurs naturally; it is generated during microbial degradation of plant and animal wastes. When released on land or water, it is apt to volatilize and biodegrade. The estimated half-life in water is 5.4 days. Isopropyl alcohol is not expected to bioconcentrate.  12.2 Effects on Plants & Animals:   There are no specific data available for this product.   Product is expected to rapidly disperse in the aquatic environment.  13. DISPOSAL CONSIDERATIONS  13.1 Waste Disposal:   Review current local, state and federal laws, codes, statutes and regulations to determine current status and appropriate disposal method for the ingredients listed in Section 2. Any disposal practice must be in compliance with local, state, and federal laws and regulations.		Embryotoxicity:	This product is not reported to produce embryotoxic effects in humans.

SDS Revision: 2.8

SDS Revision Date: 7/2/2021

### **DEFINITION OF TERMS**

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

#### **GENERAL INFORMATION:**

CAS No.	Chemical Abstract Service Number			
RTECS No.	RTECS No. Registry of Toxic Effects of Chemical Substances Number			
EINECS No. European Inventory of Existing Commercial Chemical Substances Number				

#### **EXPOSURE LIMITS IN AIR:**

ACGIH	GIH American Conference on Governmental Industrial Hygienists		
IDLH	Immediately Dangerous to Life and Health		
NOHSC	National Occupational Health and Safety Commission (Australia)		
OSHA	U.S. Occupational Safety and Health Administration		
PEL	Permissible Exposure Limit		
STEL	Short Term Exposure Limit		
TLV	Threshold Limit Value		
TWA	Time Weighted Average		

#### FIRST AID MEASURES:

CPR	Cardiopulmonary resuscitation - method in which a person whose heart has
	stopped receives manual chest compressions and breathing to circulate blood
	and provide oxygen to the body.

#### HAZARDOUS MATERIALS IDENTIFICATION SYSTEM: HMIS

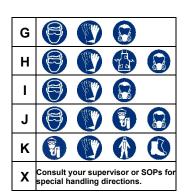

#### **HEALTH, FLAMMABILITY & REACTIVITY RATINGS:**

0	Minimal Hazard	
1	Slight Hazard	
2	Moderate Hazard	
3	Severe Hazard	
4	Extreme Hazard	

### PERSONAL PROTECTION RATINGS:

Α			
В			
С			
D			
Е			
F		TH.	

#### OTHER STANDARD ABBREVIATIONS:

Carc	Carcinogenic
Irrit	Irritant
NA	Not Available
NR	No Results
ND	Not Determined
NE	Not Established
NF	Not Found
SCBA	Self-Contained Breathing Apparatus
Sens	Sensitization
STOT RE	Specific Target Organ Toxicity – Repeat Exposure
STOT SE	Specific Target Organ Toxicity – Single Exposure

#### NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

FLAMMABILI	FLAMMABILITY LIMITS IN AIR:				
Autoignition Temperature	Minimum temperature required to initiate combustion in air with no other source of ignition				
LEL	Lower Explosive Limit - lowest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source				
UEL	Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source				

#### **HAZARD RATINGS:**

0	Minimal Hazard	FLAMMABILITY
1	Slight Hazard	. =
2	Moderate Hazard	REACTIVITY
3	Severe Hazard	
4	Extreme Hazard	
ACD	Acidic	
ALK	Alkaline	
COR	Corrosive	/ 🔻 ₩ 🗡
W	Use No Water	HEALTH 🔪
ОХ	Oxidizer	SPECIAL
TREFOIL	Radioactive	PRECAUTIONS

#### TOXICOLOGICAL INFORMATION:

LD <sub>50</sub>	Lethal Dose (solids & liquids) which kills 50% of the exposed animals		
LC <sub>50</sub>	Lethal concentration (gases) which kills 50% of the exposed animal		
ppm	Concentration expressed in parts of material per million parts		
TD <sub>Io</sub> Lowest dose to cause a symptom			
TCLo	Lowest concentration to cause a symptom		
TD <sub>Io</sub> , LD <sub>Io</sub> , & LD <sub>o</sub> or	TD <sub>Io</sub> , LD <sub>Io</sub> , & LD <sub>o</sub> or Lowest dose (or concentration) to cause lethal or toxic effects		
TC, TCo, LCio, & LCo			
IARC	International Agency for Research on Cancer		
NTP	National Toxicology Program		
RTECS	Registry of Toxic Effects of Chemical Substances		
BCF	Bioconcentration Factor		
TLm	Median threshold limit		
log Kow or log Koc	Coefficient of Oil/Water Distribution		

#### REGULATORY INFORMATION:

WHMIS	Canadian Workplace Hazardous Material Information System			
DOT	U.S. Department of Transportation			
TC	Transport Canada			
EPA	U.S. Environmental Protection Agency			
DSL	Canadian Domestic Substance List			
NDSL	Canadian Non-Domestic Substance List			
PSL	Canadian Priority Substances List			
TSCA	U.S. Toxic Substance Control Act			
EU	European Union (European Union Directive 67/548/EEC)			
WGK	Wassergefährdungsklassen (German Water Hazard Class)			

### WORKPLACE HAZARDOUS MATERIALS IDENTIFICATION (WHMIS) SYSTEM:

	<b>(A)</b>	<b>(2)</b>	(3)	$\odot$	(4)		(R)
Class A	Class B	Class C	Class D1	Class D2	Class D3	Class E	Class F
