### The Best Coffee in Singapore

This article on [Best Singapore Coffee](#) was created and first published by [TheSmartLocal.com](#).

To write this guide, we enlisted the help of [@alainlicious](#), a true coffee aficionado whom we met by chance. We casually asked him what his favourite cafes and were blown away by the level of detail and analysis he had for each of them, and in particular the coffee they served.

People often asked me for suggestions for cafes which serve the BEST coffee. I am pleased to introduce my first effort with TheSmartLocal on this guide to the 15 Best Cafes for Coffee in Singapore.

You may be wondering, "Why fifteen cafes, and not twenty or thirty?". There is no magic number, however I just felt that this number is just right, and I would not want to bore you down by reading hundreds of coffee reviews.

This guide was compiled based on a holistic approach of various factors, such as taste and aroma (quality), value (affordability), style and coffee art (presentation). I hope serious coffee lovers or those who have been searching for a good coffee joint will now have their answers all in one page. Apart from Highlander and CSHH, all these pictures were taken by myself during visits to these cafes.

Here's my list of the 15 cafes that serve the best coffee in Singapore, in no particular order.

**Address:** 1 Shenton Way Singapore 068803

**Must Try Coffee:** Gibraltar, Flat White

A coffee boutique also located in the Central Business District, serving light meals such as sandwiches and salads for the busy executives getting their caffeine fix.

Jewel Coffee is known to serve double shots for its cup of brew. They are ideal for coffee drinkers who like their coffee slightly bitter with an astringent quality.

For those who are looking for an extensive menu of food, you can check out their second outlet, Jewel Cafe + Bar, which offers a selection of unique creation. Additionally, cocktails and speciality coffees are also available there.
