

Make your own bird feeder garland

You may well already have some feeders to watch, but it is great to make your own feeders and then see which one the birds like best. They will love this tasty garland... and you'll have fun making it!

You will need.... a selection of foods such as....

String & darning needle

Dried apricots

Apple

Cheese

Bread crust

Ring cereal

Sultanas

Cut up the bread, cheese, apricots and apple into pieces

Cut a length of string and tie a knot at the end. Thread the food on carefully until you have filled your string garland.

Tie your garland round in a loop, ready to hang on your feeder cam!

Now wait for your first visitor!
