

Which bird is which?

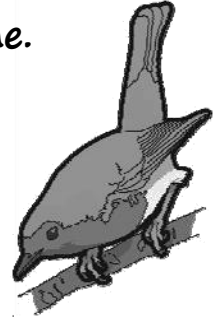

Attracting birds to an area in school is a great way to get to learn more about them. Wherever your school is, by putting up a bird table or some feeders, you should be able to attract some feathered friends... but how good are you at identifying birds?

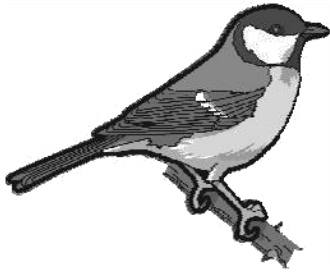

If these birds visited school, would you know what they were? Draw lines to match the bird to its name.

Collared dove

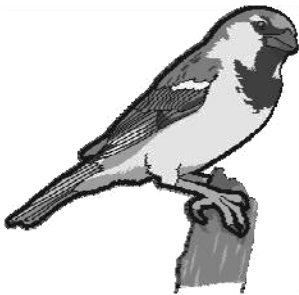

Great tit

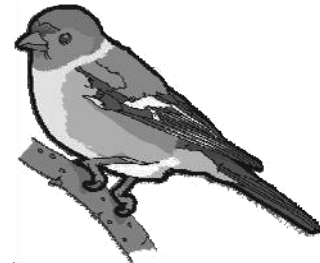

Starling

Greenfinch

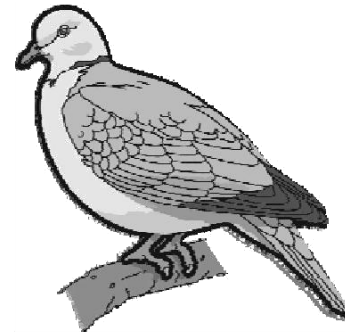

House sparrow

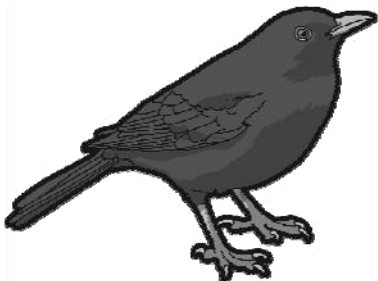

Robin

Blackbird

Dunnock

Blue tit

Chaffinch
