

# Vibes Only™

## The Rayna

Instruction Manual

# Double your pleasure

This sleek, unique vibe boasts two mind-blowing sensations in one. It's like having a threesome, only with less coordination and no hard feelings.

## Why you'll love The Rayna air pulse vibe:

- Connects to the Vibes Only app
- Air-pulse and suction on one end
- Powerful vibration on the other end
- Flexible to fit any body, in any position
- 5 levels of air pulse intensity
- 6 pulsations and patterns
- Medical-grade silicone
- Water resistant

## Wand

- Power on/off
- Vibration

## Suction

- Power on/off
- Intensity

Bluetooth

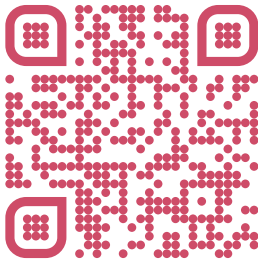

# Hope you're ready, this vibe only gets better...

Connect to the Vibes Only app to unlock a whole new world of self-love where you'll handpick your own fantasy and become the main character. Your vibe will work in tandem with the erotic reverie for a full-blown journey into orgasmic bliss.

And that's not all -- get exclusive video content from the pros on sex, dating, pleasure, and more. We hope you'll learn, laugh, and love it.

## Get connected

Scan this code to download the Vibes Only app on your phone.

# Start vibing

This vibe comes with a 50% charge. To get it all the way up, charge before use.

On your vibe, hold down the power button for two seconds to turn on.

Your bluetooth will be enabled when the device turns on. The light will flash to indicate it is discoverable.

The app will detect your device. Select it, and your vibe is synced!

To adjust intensity manually: Click the speed button to cycle through the steady speed levels.

To adjust patterns manually: Click the pattern button to enjoy various teasing sensations.

# Power your vibe

*Charging instructions*

*If your vibe is feeling a little lowkey, it may be time for a charge.*

Due to the unique design, each Vibes Only model charges slightly differently.

First, plug your USB cord into a standard charging block (high-power charging blocks may damage the battery).

Insert the charging pin (long skinny piece) into the small opening (tight hole) on the bottom of your vibe.

Be gentle, but firm until it's in as deep as it can go.

The light on your vibe will flash to indicate that it's charging.

When it is fully gassed up (approx. 2 hrs) the light will change to a steady glow.

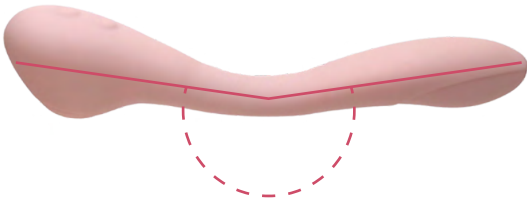

Charging port

## Don't kill your vibe

Keep your vibe bent **inwards** or **straight**. Refrain from bending back and forth excessively, so that it holds its shape.

*Do NOT bend backward past this point:*

# Care for your vibe ...and it will love you back!

## *Care instructions*

We can't recommend using a water-based lubricant enough, such as **Vibes Only Juiced Up**. Avoid using a silicone-based lubricant as this could kill your vibe. If you must use a silicone-based lubricant, perform a patch test first.

After every use, clean with warm water and antibacterial soap or toy cleaner. Dry thoroughly with a clean towel or air dry. Store in a cool, dry place and keep your vibe away from toys made of other materials. Remember to charge periodically to maintain the battery life.

## **What not to do**

- Use with oil-based massage oils or lubricants as it may damage the silicone.
- Leave your vibe in direct sunlight or ever expose it to extreme heat.

# Troubleshooting

*Your vibe's light does not pulse when the charger is connected? This could be why:*

- Battery is fully charged (go off!)
- Battery is drained and will require several minutes to recognize that it is being charged.
- Charger is not properly connected. Check your charging block and charging pin.

*Your vibe does not connect with your phone when the button is pressed?*

- Battery is drained and your vibe requires charging.
- The bluetooth on your phone is not enabled. Make sure to enable, or reset your phone if needed.
- You have exceeded the 10 seconds required for your vibe to 'find' a device. Reset both your vibe and your phone by turning off, waiting 30 seconds, then turning on. Now try again making sure your phone has fully restarted, with the bluetooth switched on. Open the Vibes Only app and hold down the power button.

If you experience any other problems with your Vibes Only product or have any questions regarding operation, download the app for instructional videos or please contact [help@vibesonly.com](mailto:help@vibesonly.com).
