

March 17, 2020

*Persistence and
resilience only come
from having been given
the chance to work
through difficult
problems.*

-Gever Tulley

We wanted to reach out to let you know that amidst a time where things are uncertain, we are still open and here to serve you. Due to the increasing demand of our natural dried fruits, our lead times are steadily increasing. If you don't have an immediate need, but plan to order in the near future, please reach out so that we can work with you and ensure that you receive your product on time.

Cherry blooms are in full swing! We are very excited about the upcoming harvest. Although we have been slightly affected by the mid-March rains, we should be expecting fresh cherries by May 1st! More updates on our crop to come as our cherries continue to grow.
