Holiday Couture Chair Scarves

Please read all instructions before beginning. All seams are ¼".

Supplies (per scarf)

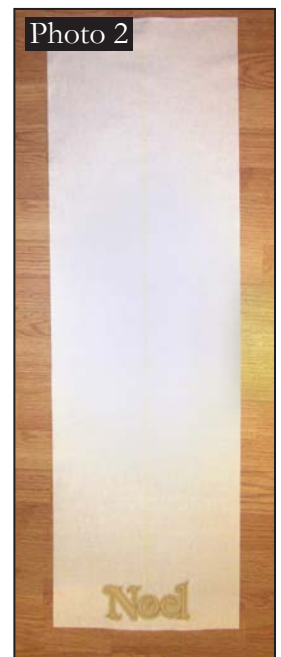

- OESD Collection #12471 Christmas Couture
- Medium weight tear-away stabilizer
- Temporary spray adhesive
- 1 ¼ yards off-white cotton fabric
- Khaki cotton fabric scraps for appliqué
- 14" x 2" piece coordinating printed khaki fabric
- 14" x 2" deep red cotton fabric
- 14" x 4" off-white satin fabric

Embroider

- Cut an 18" x width of fabric strip of off-white cotton fabric for embroidery.
- Keeping the design centered, embroider design(s) of your choice close to the edge of one selvage end of fabric. Our sample uses design 12471-19 Noel.
- Appliqué using the khaki cotton fabric as needed, following the *Cut-in-Place Appliqué Instructions* below.
- Trim loose threads from embroidery design and carefully remove excess stabilizer from the back.

Cut

- Cut remaining off-white cotton fabric into (3) 12 ½" x 36 ½" strips.
- Trim embroidered fabric ½" below the embroidery. **Photo 01**
- Keeping the embroidery centered, cut the embroidered 18" strip of fabric to 12 ½" wide. **Photo 02**

Assemble Use ¼" seams unless otherwise noted.

- With right sides together, stitch the 14" x 2" piece of coordinating printed khaki fabric to the embroidered fabric (below the embroidery).
- Press seams toward the khaki fabric.
- Trim sides of khaki fabric to 12 ½", matching the width of the embroidered fabric. **Photo 03**
- Trim the khaki fabric to 1 ¼" below the seam. **Photo 04**

- Note: I chose to sew the stripes on longer than needed, and then trim them to the desired size to ensure they remain straight. If the first stripe is uneven by a small amount, by the time the second and third stripes are attached the unevenness will be more obvious. This method will better hide any imperfections in your seams.

- With right sides together, stitch the 14" x 2" piece of deep red fabric to the khaki fabric.
- Press seams toward the red fabric.
- Trim sides of red fabric to 12 ½", matching the width of the embroidered fabric.
- Trim red fabric to ¾" below the seam. **Photo 05**
- With right sides together, stitch the 14" x 4" piece of off-white satin fabric to the red fabric.
- Press seams toward the red fabric.
- Trim sides of satin fabric to 12 ½", matching the width of the embroidered fabric.
- Trim satin fabric to 2 ¾" below the seam. **Photo 06**
- Trim the embroidered front half of the scarf to 12 ½" x 36 ½", measuring from the bottom edge of the satin fabric.
- With right sides together, attach one of the 12 ½" x 36 ½" to the non-embroidered edge of the scarf, to create the 12 ½" x 72 ½" scarf front.

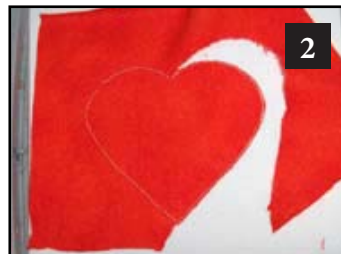

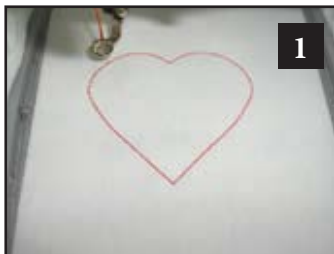

Photo 07

- Press seam open.
- With right sides together, stitch the remaining two 12 ½" x 36 ½" strips of fabric along the short sides to create the 12 ½" x 72 ½" backside of the scarf.
- Press seam open.
- With right sides together, stitch the front of the scarf to the back of the scarf. Leave an opening at the opposite end from the embroidery for turning.
- Clip corners, turn and press.
- Whip stitch opening closed.
- Edge stitch if desired.
- Fold scarf in half and drape over the back of a chair.

Cut-in-Place Appliqué Instructions

1. Hoop your fabric and backing.
2. Sew the pattern/placement. **PHOTO 1**
3. Place a piece of appliqué fabric over the pattern/placement so that it is completely covered.
4. Sew the trim stitch/tackdown.
5. Carefully cut away the excess appliqué fabric. **PHOTO 2**
6. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 3**

General Freestanding Lace Guidelines

SUPPLIES:

Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

Stabilizer:

- Use water-soluble stabilizer or film water-soluble stabilizer.

GENERAL INSTRUCTIONS

1. Hoop two layers of water-soluble stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the design.
4. Remove the hoop from the machine and the design from the hoop. Trim excess stabilizer from the design.
5. Rinse away remaining stabilizer and allow it to dry.

HANDY HINTS:

For Stiffer Lace:

- DO NOT RINSE away all of the stabilizer for a “stiffer” lace. However, do note that the thread may appear a shade darker if stabilizer is not removed completely.
- If you happen to wash too much out, easily re-stiffen by diluting some stabilizer scraps in water and dipping the item in the solution.

For Very Soft Lace:

- Cut away excess stabilizer. Remove remaining stabilizer by rinsing under warm running water until all traces of the stabilizer are gone.
- Note: If lace should become too limp to work with, dissolve stabilizer scraps in warm water and apply to the lace.

Drying Lace:

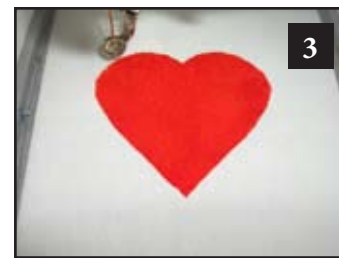

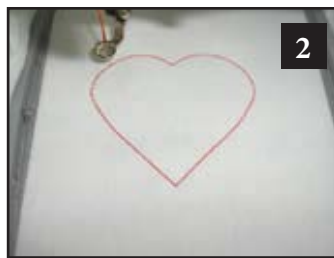

- Lay lace piece with right side down to dry. This will minimize the tendency for the lace to curl.

Pre-Cut Appliqué Instructions

1. Print out the necessary pages from the PDF of the appliqué pattern(s).
2. Mark the right side of the pattern pieces so you’ll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 1**
5. Sew the placement stitch on your hooped fabric. **PHOTO 2**
6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the sewing placement stitch so that it matches the stitching line, and then remove the paper pattern. **PHOTO 3**
8. Sew the tackdown. **PHOTO 4**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

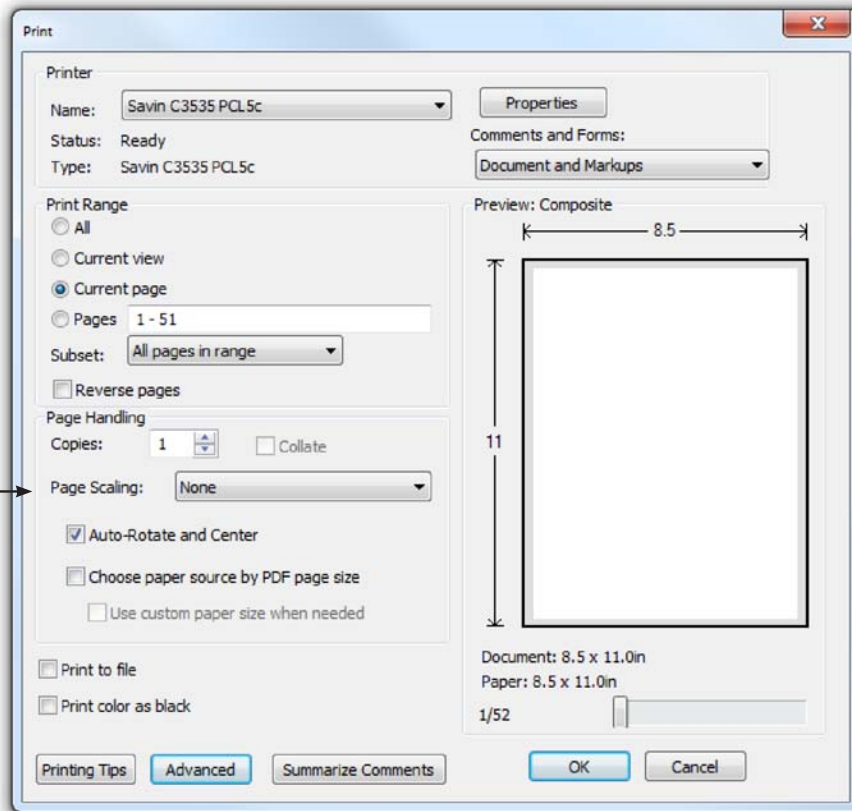

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size. For example, resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the “Fit to page” option is **UNCHECKED** in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
