# EMBROIDERY

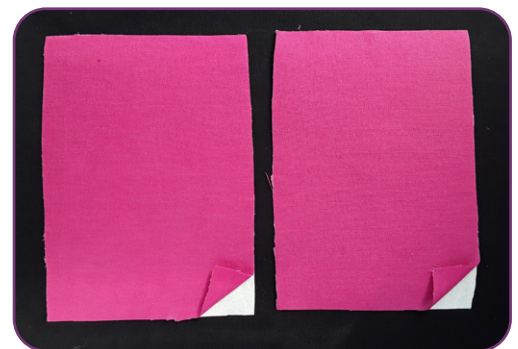

## Step 1

- The project includes freestanding applique designs and freestanding lace designs. All applique designs are stitched the same as shown in the instructions.
- All designs are stitched with matching thread in the top and bobbin.
- Hoop one piece of OESD AquaMesh and one piece of OESD BadgeMaster in the hoop for all designs.

## Step 2

- Prep the front and back applique fabrics with one layer of OESD StabilStick CutAway.

## Step 3

- Stitch Machine Step 1, Front and Back Pink Fabric Placement Stitch.
- Shown here in red for instructional purposes. Follow color chart.

# EMBROIDERY

## Step 4

- Remove the hoop from the machine, but NOT the project from the hoop. Lay the hoop on a flat surface.
- Cut a piece of prepared fabric slightly larger than the placement line.
- Place the prepared fabric right side up, covering the placement line completely. To secure, tape in place with OESD Expert Embroidery Tape TearAway.

## Step 5

- Turn the hoop over and place the back prepared applique fabric right side up covering the placement stitch completely.
- To secure, carefully tape in place with OESD Expert Embroidery Tape TearAway.
- Avoid pushing too hard on the stabilizer to prevent it from dislodging from the hoop.

## Step 6

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.
- Shown here in black for instructional purposes.
- Follow color chart, matching top and bobbin thread.

# EMBROIDERY

## Step 7

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the stitching as possible. If the outermost stitches are cut, the inner stitches will hold the applique in place.

## Step 8

- Turn the hoop over and trim.

## Step 9

- Return the hoop to the machine and stitch the remaining colors according to the thread chart.
- Match the bobbin thread to the upper thread colors where indicated.

# EMBROIDERY

## Step 10

- When design is complete, remove the project from the hoop and trim the stabilizer 1/4" - 1/2" outside the design.

# ASSEMBLY

## Step 1

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.

## Step 2

- With a dry iron press each piece, right side down, on a Perfect Embroidery Press Cloth.

## Step 3

- Use the Perfect Punch tool with the 3mm attachment, punch holes in the eyelets indicated in the photo.

# ASSEMBLY

## Step 4

- Push a brad through the top eyelet of the body from the front side, then lay flat face down.

## Step 5

- Arrange the Top Left Wing O1 as shown face up to the right side of the body, with the eyelet on the long end over the brad.
- Note: Since the body of the butterfly is face down, the left wings are attached to the right side and the right wings are attached to the left side. The position of the wings (left or right) refer to their position on the body from the front.

## Step 6

- Fold the short end of the wing over, sliding the eyelet directly over the brad.
- Bend the brad points apart just enough to hold the wing in place.

# ASSEMBLY

## Step 7

- Arrange the Top Right Wing O2 as shown face up to the left side of the body, with the eyelet on the long end over the brad.

## Step 8

- Fold the short end of the wing over, sliding the eyelet directly over the brad.
- Bend the brad points flat to the wings to secure.

## Step 9

- Push a brad through the bottom eyelet of the body from the front side, then lay flat face down.

# ASSEMBLY

## Step 10

- Arrange the Bottom Left Wing O3 as shown face up to the right side of the body, with the eyelet on the long end over the brad.

## Step 11

- Fold the short end of the wing over, sliding the eyelet directly over the brad.
- Bend the brad points apart just enough to hold the wing in place.

## Step 12

- Arrange the Bottom Right Wing O4 as shown face up on the left side of the body, with the eyelet on the long end over the brad.

# ASSEMBLY

## Step 13

- Fold the short end of the wing over, sliding the eyelet directly over the brad.
- Bend the brad points flat to the wings to secure.

## Step 14

- The butterfly is complete. Enjoy!

## Finishing Touches

- **TIP:** Use ribbon, yarn, or as seen here, a paper clip around the brad to hang the butterfly as desired.

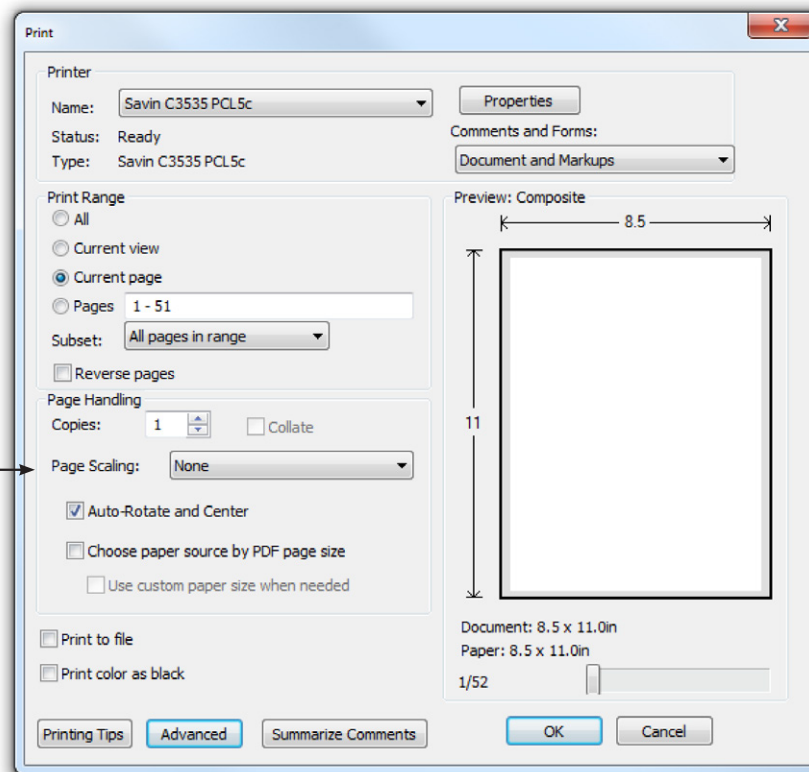

# INSTRUCTIONS

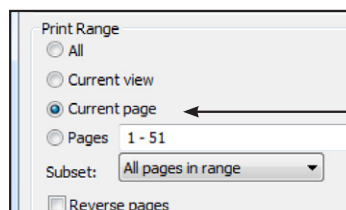

## ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

## TO SAVE PAPER

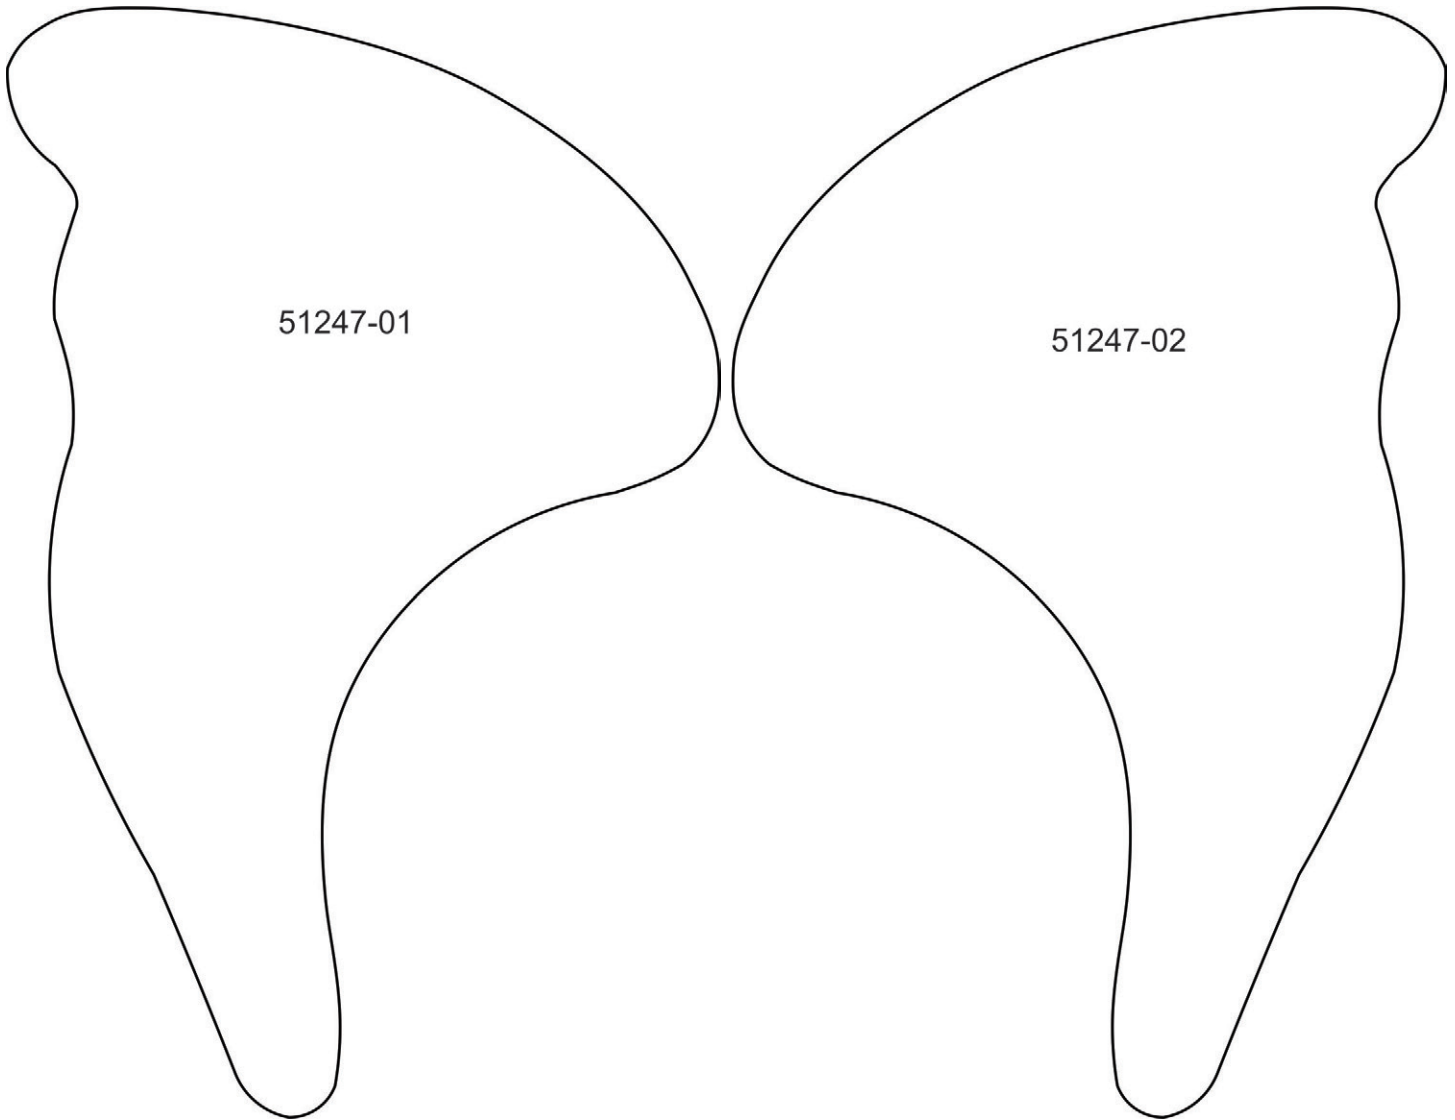

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
