MATERIALS

Stabilizers

- OESD Fusible Woven 15" (1 roll)
- OESD Ultra Clean and Tear 15" (2 rolls)

Fabric/Textiles

- 3 1/2 yd black cotton fabric
- Batting 32" x 40"
- 1 yard Backing
- Binding 1/3 yard, cut 4 strips width of fabric x 2.5" strips, stitch together at 45° angle to create one long strip
- Note: Fabric yardage is based on a 10" x 15" hooping. Fabric and stabilizer amounts may vary depending on hoop size and number of tiles per hooping.

Notion & Tools

- OESD Expert Point and Press Tool
- OESD Perfect Embroidery Press Cloth
- 505 Temporary Spray Adhesive
- Ruler, rotary cutter, mat
- Contrasting bobbin thread
(seam stitch only, may be different colors)
- Fabric marking pen
- Embroidery Needle Sharp 75/11
- Walking foot
- Dual feed foot

Isacord Thread Colors

- Per thread chart

DIAGRAM

COMPLETED TILING SCENE IS 25" X 31"

PREP

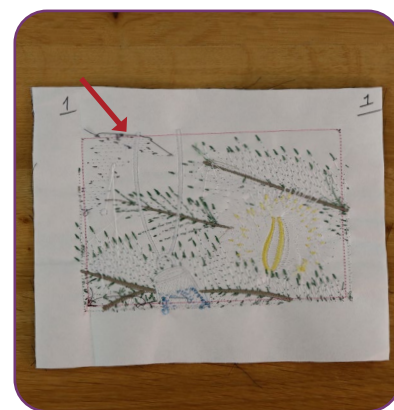

Step 1

- Embroider one of each design file 90030-01 through 90030-32.
- For each hooping, cut the following 10" x 15", or large enough to hoop:
 - 1 layer of Fusible Woven
 - 2 layers of Ultra Clean and Tear
 - 1 layer of background fabric
- Apply Fusible Woven to the back of the background fabric.
- Apply two layers of Ultra Clean and Tear TearAway to the back of the background fabric with temporary spray adhesive.
- Note: To economize on fabric, cut the fabric 15" wide (or the height of the hoop + 2") x width of the fabric. Apply the stabilizers. Move the hoop down the length of the fabric as each block is stitched. Leave a minimum of 1.5" between the blocks.

Step 2

- For each tile, stitch the colors per the thread chart.
- The last color change in each block is called "Seam". This line is the guide when trimming and stitching the tiles together and needs to be highly visible on the back side of the tile. Stitch the top color in a thread that blends with the fabric or invisible thread.
- Use a color in the bobbin that contrasts sharply with the wrong side of the tile.
- Note: Since the bobbin color does not have to be the same on each tile, this is a great time to use up partially wound bobbins.

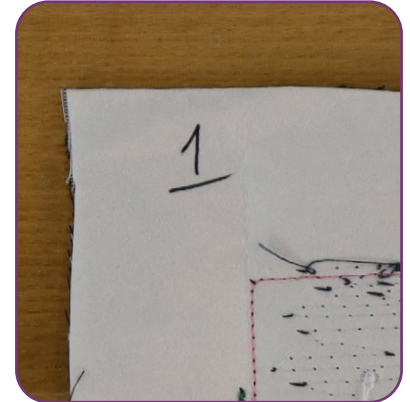

ASSEMBLY

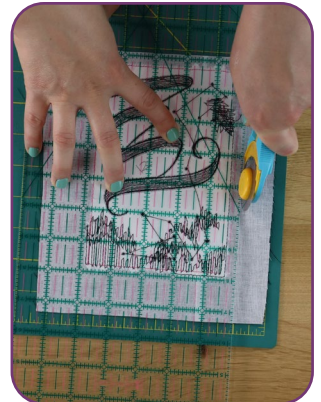

Step 3

- After the embroidery is complete, press each block right side down on a Perfect Embroidery Press Cloth.
- Write the number of the block on the back so it is easily identified during construction.
- Tip: Use a pen or pencil that will not bleed through to the front side.

Step 4

- At the cutting mat, place the block right side down. Identify the “seam” stitch line. Trim 1/2” inch out from the seam stitch line on all four sides to create the seam allowance.
- Note: Accuracy will significantly facilitate the construction of the scene.

Step 5

- Arrange the tiles in the layout for the scene.

ASSEMBLY

Step 6

- Stitch two adjacent tiles, right sides together; the bottom of one tile to the top of the one below it.
- Align the matching edges and stitch just inside of the seam line.
- Repeat until all the blocks have been paired.

Step 7

- Press each seam open.
- Note: If the seams do not come apart easily, press both seam allowances to one side using steam and a cotton or linen setting.
- While warm, open the seam allowance with the large ball of the Expert Point and Press Tool.
- Press again and allow to cool.
- Once cool, remove the excess stabilizer in the seam allowance.
- Do not remove excess stabilizer from inside the seam line.

Step 8

- Lay out the pressed tiles.
- Pair the connected tiles with the connected tiles to the right.

ASSEMBLY

Step 9

- Align the center seams.
- Stitch just inside the seam line connecting all four blocks.
- Press seams open.
- Note: If the seams or major points of matching do not match up, try stitching that part first. Check for accuracy. Then stitch across the tiles.

Step 10

- Finish connecting the block of tiles to the ones below. Press and remove stabilizer. Then continue the stitching and pressing process until the scene is completed.

Step 11

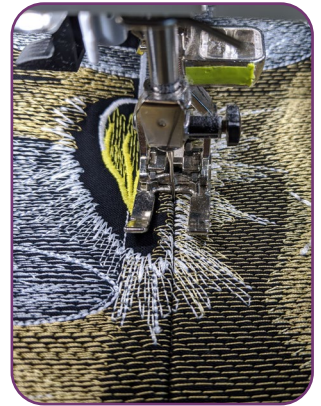

- Cut batting and backing at least 2" larger than the tiling scene.
- Layer the backing (right side down), batting, and tiling scene (right side up).
- Center the tiling scene over the batting and backing.
- Spray baste all layers with temporary spray adhesive.

ASSEMBLY

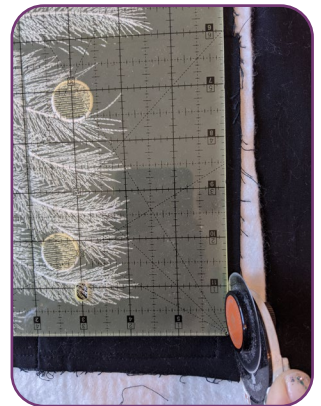

Step 12

- Thread the sewing machine with a thread color that blends with the scene or invisible thread.
- Where the tiles connect, stitch in the ditch to attach the batting and backing to the top.
- Tip: For best results use a walking foot.

Step 13

- Trim 1/4" from the edge, through all three layers, to square up the finished scene.

Step 14

- Zigzag over the raw edges to join the edges together.
- Bind as desired.
