

FLOAT TRIP

Decaf Swiss Water Process Arabica Blend

Product Overview

Slow your roll! Float Trip Swiss Water Process Arabica blend is a medium roast decaf that is packed with flavor. Decaf doesn't mean you have to sacrifice taste. Enjoy after dinner or if you're on your third pot of the day and want to be able to sleep tonight. We like it black, mixed with Rumchata or

Frangelico, or with cream on the rocks!

Tasting Notes & Details

Smooth | Roasty | Dessert Ready

Process: Swiss Water Process, Washed

Origin: Colombia, Peru, Central America

DETAILS

Taking advantage of the crystal clear waters flowing out of the mountains of British Columbia, Swiss Water Process uses no chemicals or solvents. This results in a very smooth cup preserving the origin coffee flavors.
