

Where does this fit into the Bionox product line?

- It can be taken with all our other products.
- Pairs well with our Bionox Ultimate Nitric Oxide Nutrition product for a powerful, 24-hour nitric oxide boost.
- Take with our Chelanox to detox and chelate the body.

Using nitric oxide test strips, we tested 5 leading greens powders to see if they created any nitric oxide.

Bright pink indicates a positive result. As you can see nothing comes close to Ultimate Beetroot Energy

Test shows superiority of Ultimate Beetroot Energy over others

ULTIMATE BEETROOT ENERGY

Get the Power of
One Whole Beet
in each cherry tart!

Get the power of one whole beet in each cherry tart!

Beetroot Energy is a super tasty, easy-to-use nitric oxide booster that gives you energy, endurance, stamina, and incredible health benefits. We use a standardized 100mg of healthy natural beetroot nitrates that, unlike other brands, ensures results and potency.

Benefits

- Sustained energy.
- Supports increased strength & endurance.
- Increases vasodilation for harder and more vascular looking muscles (gets great pumps in the gym).
- Increased blood flow supports improvements in health, cognition, and skin tone & tightness.

Unlike beetroot powders, **Beetroot Energy** is an easy-to-use, delicious cherry tart, and requires no mixing or preparation.

Our natural cherry flavor is fantastic and is loved by our customers!

So what is a tart anyway?

Each **Beetroot Energy** tart is like a hard candy tart or lozenge. It dissolves slowly in the mouth so your oral microbiome gets plenty of beetroot nitrates to boost your energy and nitric oxide levels.

It can be taken with or without food at any time. For exercise take one or two tarts 45 minutes before your workout.

Beets can contain large amounts of natural nitrates when grown in suitable soil. These nitrates are responsible for producing and boosting nitric oxide levels in the human body.

They have powerful cardiovascular and immune system-boosting effects. These natural nitrates are unlike synthetic nitrates found in processed meats like bacon (which should be avoided).

Powerful cardiovascular effects

Why is Beetroot Energy Better Than Other Beetroot Products?

Most beetroot products contain almost no natural nitrates. Natural beet nitrates are responsible for all the health benefits associated with beets. We use a standardized 100mg of natural beet nitrates to produce real results. Some other formulas use synthetic nitrates as a cheap way to up the value of nitrates on the label.

What do users say about the product?

"My favorite thing about these beet tarts has got to be the flavor. If you like beets then you will love these, it's sort of a mild cherry mixed with beets, giving both sweet and tart flavors. I also like how they are sort of effervescent in the sense that they dissolve well in your mouth..."

"I found this product to be an easy way to boost nitric oxide. At 65+ years, my doctor is very pleased that I am not on prescription medication. I have been able to keep my blood pressure and blood sugar under control, and this product is helping me do that. Thanks, Bionox!"

"These are great for taking at the gym and are a quick way to boost your nitric oxide!"

Beetroot Energy is designed to be taken on the go, anytime, anywhere, for sports and energy.
