

What do users typically say about Chelanox?

Here are a few of our customer's experiences in their own words:

"I had no idea of the toxins in my body until I started taking these. Within a week, I felt like a totally different person. I could tell that it was cleansing my body of the yuck that was in there. I have less pain, I've got more energy and I'm sleeping better."

"What a great natural combination of ingredients. They help me in so many ways. I feel a natural wellness when I take these capsules, I have more energy, more focus, and feel healthier. It helps reduce toxicity levels. ALA helps with liver and kidney cleanse and also supports nerves to regenerate from injuries. This also supports and cleans the capillaries so they can absorb nutrients to the cells. Very impressed! Great product! I recommend It!"

"I cleanse semi-annually and Bionox Chelanox Heavy Metal Detox was an integral part of my last cleanse. After completing the detox I felt energized and clear of mind. I will buy again and recommend this to anyone looking to detox their vital organs and cardiovascular system."

Dosage and Use*

- 2 capsules daily are a safe and effective way to detoxify daily.
- Those with advanced toxicity issues can take as much as 8-12 caps daily for 3-6 months (or longer).
- Some like to do a periodic yearly detox by taking 4 caps daily for a month or longer.

*This information is not intended to diagnose, treat or cure disease.

Important reminder!

- Take a multi-mineral complex at a separate time of the day as Chelanox to replace any minerals that may be lost.

**Daily Values (DV) Not Established

Other Ingredients: Cellulose (Capsule), Silica, Vegetable Stearate

High Performance Health™

CHELANOX HEAVY METAL DETOX

Don't just detox,
Chelanox!

Effectively removes dangerous toxins and heavy metals from the body and supports and promotes improved circulatory system and immune system health!

Let's face it; the word detox has been thrown around and placed on ineffective creams, teas, and many a fat-loss product. The need to detox, however, is real, and with today's high level of industrial contamination, more necessary than ever.

Heavy metals don't just accumulate in one place, they go everywhere, and Chelanox goes there too. Chelanox stands alone by effectively chelating all organs and internal systems, including the heart, liver, kidneys, and immune system. With EDTA, Chlorella, and Cilantro extract, Chelanox binds unwanted toxins, eliminates them, and even heals the body.

Don't just detox, Chelanox!

- Binds to unwanted contaminants and expels them from all tissues in the body.

- EDTA degrades when it comes in contact with acid in the stomach, so we use acid-resistant capsules that release it into the small intestine for maximum absorption and benefits.
- Promotes healing in the body.
- Supports the immune system for enhanced recovery times and elevated energy levels.
- Contains ingredients like NAC and milk thistle that raise glutathione levels and provide a superior immune system cleanse and boost.
- Enhances peace of mind when taken after using medicines or receiving shots that may have had heavy metal contamination.
- Reduces or completely removes toxins and heavy metals that can build up and lower nitric oxide levels.
- Built in herbal support for the liver and kidneys.

Works with other Bionox products to support healthy nitric oxide levels.

Why is Chelanox better than other formulas?

Most other detox formulas contain one main active ingredient to promote detoxification, like milk thistle. If these products contain other ingredients, they are in deficient, nonfunctional amounts. The same is true for most chelation supplements. They may contain one chelating agent but only a negligible amount of that active ingredient, making the product ineffective for detoxification. Chelanox stands alone in having all the best natural chelation and detoxification agents in powerful, therapeutic amounts. Nothing else works like Chelanox to provide both a systemic cleanse of all the major organs and circulatory system, along with providing circulatory system and immune system health support. Like all Bionox products, we formulated Chelanox based on one single question "does it work?"

You are essentially getting three valuable and effective products in one, which, if purchased individually, would cost more than \$100.

Where does this fit in the Bionox product line?

- It can be taken with all our other products.
- Take with Ultimate Nitric Oxide Nutrition as a "one-two" punch for nitric oxide boosting and chelation. Chelanox detoxifies the arginine pathway, and Ultimate Nitric Oxide Nutrition provides the arginine and other raw materials to effectively boost nitric oxide.
