

Creekside Puppy Adoptions

217-549-6555

1 YEAR HEALTH Guarantee Agreement

1. To the best of the seller's knowledge, this puppy is sound and in good health. It is understood that the puppy is to be taken to a licensed veterinarian within 72 hours of receiving the puppy. If the puppy is not examined by a vet of the buyers choice within 72 hours, this contract is null and void. 2. If the puppy is found to have a genetic disorder by the veterinarian within the first year of the puppy's life, we will replace the puppy with the first available puppy of the same value from the breeders stock. We provide this warranty for 1 years after the date of sale against any debilitating congenital defects. In the event the puppy exhibits symptoms of a suspected debilitating congenital defect, the buyer must supply any requested veterinary records to the seller within 7 days of informing the seller of the defect. We have the right to require a second opinion from a veterinarian of the sellers choice at the sellers expense. The original puppy must be returned (at the owners expense) before a new puppy can be replaced. In the event of death, an autopsy must be returned (at the owners expense), by a licensed veterinarian to determine the exact cause of death. This information will then be sent to the breeders veterinarian for review. 3. Hypoglycemia, giardiasis, coccidia, malnutrition, dehydration, and physical exhaustion are not covered under the terms of this contract. The guarantee against transmissible diseases such as Parvo-virus, for example, is valid for a period of 7 days starting on the day of pick up, since normal incubation period for transmissible diseases is 5-7 days. For example: If the first signs of Parvo-virus were to show on a puppy 12-15 days from pickup, the puppy could not have carried that disease from the breeders premises and incubated it for that long before showing signs of the disease. 4. You as the owner are required to: give all immunizations (including rabies), check for internal parasites every 3 months until 1 year of age, start the puppy on heart worm prevention between 4 and 6 months of age. 5. For the purpose of this agreement, once the puppy leaves the sellers premises, it is under the buyer's responsibility and the seller is no longer responsible for any veterinary bills. If any treatment is rendered, it is at the buyers expense. Seller is bound only to the original buyer. No warranties expressed or implied are made under the terms of the contract except as stated above.

To qualify for a 2 year health guarantee you must give your new puppy NuVet Plus, using the manufactures recommended daily dosage for the entire 2-year guaranteed period. Failure to do so makes this guarantee extension null and void. **I the buyer, agree to take my puppy to a licensed vet within 7 days of receiving the puppy to validate written contract. I also understand the care instructions and have been provided with sufficient information in regards to the puppy. If for any reason I have a question, I realize I can contact the seller directly. I have read the above contract in full and understand all terms.**
