

# A page to colour.

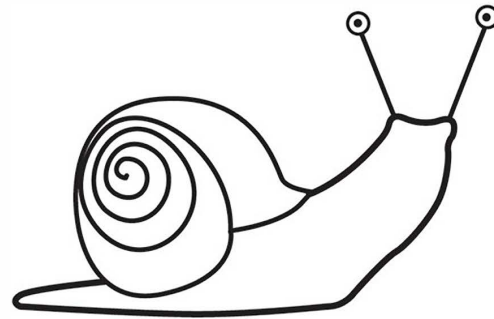

See if you can find any of these insects around the plants and flowers in the book, or in the garden, or in the park.

Did you know:  
Snails are not insects,  
they belong to a family  
called gastropod.

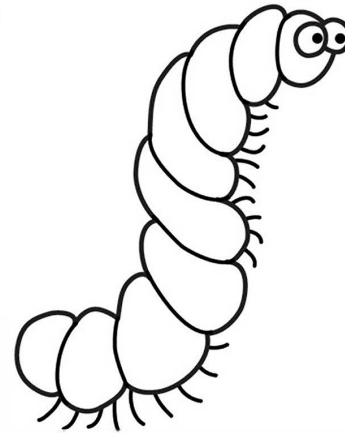

An activity inspired by  
the book I SAW A BEE  
by Rob Ramsden.

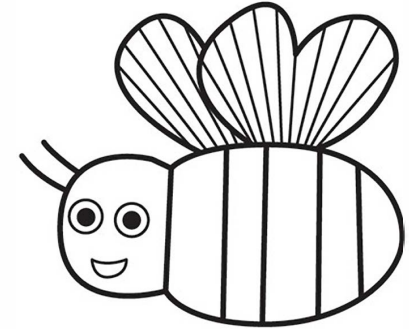

A book to share from  
**Scallywag Press**
