Winstrol é usado por fisiculturistas e atletas para perder gordura e reter massa corporal magra. A capacidade de winstrol para evitar a retenção de água pode ser benéfica a este respeito. Alguma quantidade de hormônio testosterona pode ser convertida em estrogênio e assim pode resultar em retenção de água.

The doctors and nurses there [were] very nice 🙌 I didn't have a very long wait like I do when I go to my doctor office. I was referred there...I'm glad he referred me. They are excellent place and I would recommend them to other people who would ask about pain management. Thank y'all so much 💕
