AR 30MM FIXED MOUNT

Model Number	FF34011
Ring Diameter	30 mm
Material	Aluminum 6061-T6
Length	130 mm
Width	52 mm
Height	64 mm
Weight	139 g

DIVERGE 3X MAGNIFIER

Model Number	FF19023
Magnification	3x
Objective lens diameter	24 mm
Eyepiece diameter	23 mm
Exit pupil diameter	8 mm
Eye relief (in/mm)	48 mm
Field of view	10 m @ 100 m
Dimensions	109 x 31 x 65 mm
Weight	190 g

RIVAL XL RED LASER AND FLASHLIGHT

Model Number	FF35010K
Laser Wavelength	630 – 650 nm
Laser Type	Red, Class IIIA
Effective Range (Day/Night)	18-274 m
Wind. / Elev. Adjustment	Continuous
LED Output	180 Lumens
Battery Life (Laser/Light/Both)	6 / 7 / 4 hours
Dimensions	202 x 38 x 96 mm
Weight	159 g

6.5 CREEDMOOR BORESIGHT

Model Number	FF39019
Battery Life	1 hour
Construction	Brass

RIVAL XL GREEN LASER AND FLASHLIGHT

Model Number	FF35011K
Laser Wavelength	532 nm
Laser Type	Green, Class IIIA
Effective Range (Day/Night)	46 - 549 m
Wind. / Elev. Adjustment	Continuous
LED Output	180 Lumens
Battery Life (Laser/Light/Both)	6 / 7 / 4 hours
Dimensions	202 x 38 x 96 mm
Weight	159 g

9MM BORESIGHT

Model Number	FF39018
Battery Life	1 hour
Construction	Brass

Products marked "EMEA SPECIAL REQUEST ONLY" will be available 3-6 months from order date.

BARRAGE RIFLESCOPES

OTHER BARRAGE MODELS

RIFLESCOPES

From close- to mid-range engagements the Firefield Barrage 2,5-10x40 Riflescope is the ideal ready-for-anything optic. Built for rugged reliability and precision accuracy, Barrage Riflescopes boast a 2 piece mount, IPX4 waterproof performance, 6061-T6 aircraft-grade aluminum construction, a red/green illuminated Mil-Dot reticle and 100-hr. battery life.

ILLUMINATED RED/GREEN MIL-DOT RETICLE

Name: Paweł Kożuch
Instagram: @asg_oscypek_pl
Country: Poland 

Favourite Firefield Products:
RapidStrike 1-6x24 Riflescope Kit (FF13070K) p.8
BattleTek Weapon Light (FF25015) p.25

With more than 13 years of practical experience in the field, Paweł Kożuch is one of the veterans in the airsoft community in Poland. He has not only witnessed the development and evolution of the sport in his country, but he has also contributed to it a great deal. Paweł has helped shape and make airsoft popular amongst young people over the years, and he continues to do so through social media channels and the airsoft replica service he provides.

Paweł, or better known as Oscypek on social media, has dedicated his Instagram profile and YouTube channel to a variety of interesting topics. From sharing technical information and interesting products, to creating content in the shape of VLOGS and product reviews, Paweł's social media presence is ever-evolving. He states, "My style and my content are in a constant flux. I have many plans for the future to bring even more interesting and engaging content to my followers - gameplays and podcasts are really high on my list."

According to Oscypek, his personal journey follows a very common path in the airsoft community - from an innocent interest, to a serious hobby, to a 'way of life'. When describing a transformation that came so naturally, Oscypek wonders, "Isn't this what happens to every airsoft player?" In fact, he now provides airsoft replica services, where he not only repairs them, but is actively helping 'other airsofters make their dreams come true'. He says, "These services are highly personalized. Each and every piece is unique and meets the individual needs of the owner. I approach my clients with the intent to give them one of a kind piece. I don't like boredom or duplicating ideas."

Oscypek pays close attention not only to his replica weapons, but also to the accessories and optical gear he uses during the games. "During conversations with people from all over the world, the name 'Firefield' was always used as a determinant of quality." This claim piqued his interest and he wanted to test it himself. "Of course, the brand didn't disappoint. My favorite accessories are the RapidStrike scope & BattleTek flashlight. If I was to sum it up in one sentence, I would say that the one thing I appreciate and value the most is their reliable operation during the games. They give me peace of mind, and are one less thing I need to worry about!"

RAPIDSTRIKE RIFLESCOPES

With the RapidStrike 1-6x24mm AR-15 rifle scope kit, you get speed, accuracy and distance - something you just can't get out of a red dot sight. The 1-6x magnification provides fast and accurate point and shoot capabilities without target or reticle distortion, 1-6x is perfect magnification for medium-range usage. Included is a cantilever mount to provide the correct cheekweld for AR-15s, throw lever for rapid magnification changes, a honeycomb filter to reduce glare and pop-up, resettable locking turrets that return to zero.

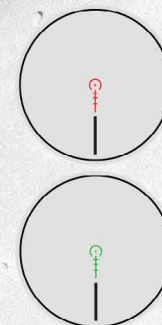

RAPIDSTRIKE 1-6X24 KIT

Objective Lens	42 mm
Eye Relief	109 - 86 mm
Field of View	7,9 - 2,1 m @ 100 m
MOA Adjustment	1/4
Range of Adjustment	40 MOA
Tube Diameter	25,4 mm
Battery Life	80 - 150 hours
Dimensions	340 x 56 mm
Weight	737 g

Engineered for precision accuracy, these units feature an adjustable objective lens to correct parallax and a 1/8-inch click MOA adjustment to ensure accurate shot zeroing and bullet placement.

Their easy-grip, open windage and elevation turrets allow the shooter to quickly fine-tune the reticle for bullet drop, ensuring even greater accuracy.

Weatherproof, shockproof and fog proof, the Tactical Riflescopes are operable in temperatures between -20 degrees and 60 degrees Celsius, making them a versatile tool for any environment. Weighing less than 1kg, these riflescopes are extremely lightweight, yet capable of withstanding up to 1,200 g's of recoil.

Battery life for the adjustable illumination is between 80-150 hours.

TACTICAL 8-32X50AO IR

Model Number	FF13045
Magnification	8 - 32x

Name: Elvis Varcelija
Team: Bad Company
Instagram: @elvisvarcelija
Country: Serbia 

Favourite Firefield Products:
Impact XL Reflex Sight (FF26024-BOX) p.16

Born and raised in Serbia, Elvis Varcelija is one of the most dedicated airsoft competitors you will ever meet. When you hear him talk about his airsoft adventures and exciting encounters over the years, his passion for the game is literally contagious. Through his Instagram account @elvisvarcelija, he has built a highly successful channel, which allows him to share his experience and knowledge with the airsoft community. His ability to visually 'capture the moment' has inspired hundreds of airsofters to follow in his footsteps.

Acknowledging the responsibility that comes with such a large body of followers, Elvis uses his Instagram profile as a platform to bring people together, to connect and unite them. Having gone through a rough time in his life, Elvis found rescue in playing airsoft and most importantly connecting with his team members. He states, "Many people helped me when I started, now I am trying to do the same for others. My team is my rock, my everything. It is all about brotherhood and trust. When darkness took over my life, my airsoft buddies were a small ray of light that made a difference for me. My airsoft world literally pulled me up, made me shine again, made me alive again! This is precisely what I try to do for others - share my personal experience, reach out and support them, inspire through my photographs."

Indeed, Elvis' photography and visuals are beyond captivating. His goal is to be real and genuine in everything he shares, to show his everyday gear and no fake 'staging' or setups. "When it comes to the gear I rely on, the Impact Reflex Sight XL is very often part of my setup for several reasons: the quick aim is vital in so many situations, the illumination is perfect, there is no ghosting, and of course the fact that it weighs less, which I find quite important."

IMPACT RED DOT SIGHTS

Helping bring targets down to size, the Firefield Impact XL is a compact reflex sight designed for use on modern sporting rifles and shotguns. Offering rapid target acquisition and unlimited eye relief for quick and easy aiming, the Impact XL features 4 different reticle options with 5 brightness settings providing ultimate user preference. Shockproof and IP55 water resistant, this robust reflex sight is housed in durable cast aluminum.

Laser Wavelength	650 nm
Laser Type	Red, Class IIIA
Visibility (Day/Night)	18 - 274 m
Battery Life	19 hours
Dimensions	61 x 33 x 28 mm
Weight	53 g

BATTLETEK GREEN LASER SIGHT

Model Number	FF25017
Laser Wavelength	520 – 532 nm
Laser Type	Green, Class IIIA
Visibility (Day/Night)	46 - 549 m
Battery Life	2,5 hours
Dimensions	601 x 33 x 28 mm
Weight	53 g

BATTLETEK SUBCOMPACT RED LASER SIGHT

Model Number	FF25019
Laser Wavelength	650 nm
Laser Type	Red, Class IIIA
Visibility (Day/Night)	27 - 274 m
Battery Life	2 - 6 hours
Dimensions	47 x 27 x 27 mm
Weight	26 g

BATTLETEK SUBCOMPACT GREEN LASER SIGHT

Model Number	FF25020
Laser Wavelength	520 - 532 nm
Laser Type	Green, Class IIIA
Visibility (Day/Night)	46 - 549 m
Battery Life	40 mins - 2 hours
Dimensions	47 x 27 x 27 mm
Weight	26 g

BATTLETEK WEAPON LIGHT FLASH LIGHT

Model Number	FF25015
Bulb Type	White LED
Output Max	150 Lumens
Battery Life	1,8 hours
Dimensions	66 x 33 x 27 mm
Weight	54 g

RIVAL FOREGRIPS

Firefield's Foregrip-and-Flashlight combination is the perfect addition to any M-LOK styled AR rail. The foregrip is compact, lightweight and features durable composite and metal construction with a matte-black finish. The integrated 5mW green laser/flashlight emits powerful illumination with 549 meters nighttime visibility. The laser also delivers 46 meters daytime visibility. The Rival XL Foregrip Flashlight Green Laser Combination is a valuable accessory for short-range shooters and hunters alike in any lighting conditions.

LASER BORESIGHTS

Firefield's 6.5 Creedmoor In-Chamber Red Laser Brass Boresights are the product you need to get your firearm on-paper fast, with pinpoint accuracy and reliable durability. These boresights should be loaded like a typical round into your firearm's chamber, where it will then emit a red laser to show exactly where your barrel is aiming.
