

WAGO-I/O-PRO is a programming and visualization tool for control programs, allowing users to develop PLC applications for the programmable fieldbus controllers of the WAGO I/O System 750.

WAGO-I/O-PRO runs in line with the IEC 61131-3 standard, which specifies the requirements for a programming system. The IL, SFC, LD, FBD and ST programming languages are supported. The optimal programming language can be chosen for each application.

With extensive programming functions, the software readily meets the increasing requirements of control program development (e.g., reusability and modularization).

- Efficiently translate between programming languages
- Automatic variable declaration
- Library management

Integrated test and diagnostic functions also streamline and accelerate PLC projects' implementation processes.

- Program code with online status indicator
- Offline simulation
- Integrated process visualization
- Record and graphically display project variables

WAGO-I/O-PRO also offers the option of programming your existing products from other manufacturers within the CODESYS automation alliance in addition to the standard programmable CODESYS automation alliance products from WAGO.

Requisitos de sistema

Sistemas operativos compatibles	Windows 7 Windows 10
Procesador	1 GHz o superior, con 32 bits (x86) o 64 bits (x64)
Memoria	1 GB RAM (mín.), 2 GB RAM o más (recomendado)
Espacio de disco duro	min. 290 MB
Resolución de gráficos	1024 x 786 (mín.), 1280 x 1024 o superior (recomendado)
Otros requisitos de sistema	Open serial interface

Entrega

Volumen de entrega	CD-ROM con software y cable de comunicación USB (750-923)
--------------------	---

Datos comerciales

eCl@ss 10.0	27-24-25-01
eCl@ss 9.0	27-24-25-01
ETIM 8.0	EC000809
ETIM 7.0	EC000809
PU (SPU)	1 UDS
Tipo de embalaje	Box
País de origen	DE
GTIN	4045454956776
Número de arancel aduanero	85234920009

Environmental Product Compliance

RoHS Compliance Status	Compliant,With Exemption
RoHS Exemption	7(a) 7(c)-I
