

# A-STAR MUSIC Djembes

Educational products and accessories are our passion at A-Star Music. With our huge range of handheld percussion and early years products, our mission is to bring affordable entertainment to classrooms, workshops and households.

A-STAR MUSIC

## How to Play

- 1 Hit the centre of the drum skin with a flat palm and pull away your hand quickly after striking.

- 2 Strike the edge of the djembe with slightly arched fingers. The bottom of your fingers should be hitting the edge of the rim.

- 3 Cup your hand and strike the edge of the drum with your fingertips. This should be a fast movement to get a bright sound.

## Did you Know?

The djembe originates from West Africa, dating back to at least 1300 AD.

Traditionally made from a hard/dense wood with a goatskin head.

Striking the djembe skin in different positions alters the pitch of the drum.

## A-Star Djembe Family
