

A-STAR MUSIC

Wrist Bells

Educational products and accessories are our passion at A-Star Music. With our huge range of handheld percussion and early years products, our mission is to bring affordable entertainment to classrooms, workshops and households.

A-STAR MUSIC

How to Play

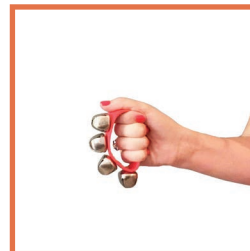

- 1 Wrap the bells around your wrists and secure with the fastening strap.

- 2 Shake your arms and wrists, clap your hands together or pat your knees to create different sounds.

- 3 You can also hold the bells between your fingers for a more controlled sound.

Did you Know?

Bells were used in Ancient Egypt and were commonly suspended from horses, mules and camels to signal to pedestrians.

Traditionally made of sheet metal bent into a spherical shape with a small ball bearing placed inside.

Bells were one of the first instruments played in space. In 1965 astronauts smuggled bells and a harmonica onto their spacecraft.
