

A-STAR MUSIC Maracas

Educational products and accessories are our passion at A-Star Music. With our huge range of handheld percussion and early years products, our mission is to bring affordable entertainment to classrooms, workshops and households.

A-STAR MUSIC

How to Play

1 Hold your maracas by the handle, upright and parallel to your body.

2 Flick your wrists forward and back into starting position continuously to create the shaking sound.

3 For some rhythms, you may create the sound by extending your arms.

Did you Know?

Maracas are suitable to play many different musical styles, however they are very popular in Latin & Caribbean music.

Traditionally the bell was made from hollowed and dried Gourds, a fleshy fruit with hard skin.

To create the "rattle" they were filled with beans, beads, dried seeds or pebbles.
