

DERMATOLOGIST & PLASTIC SURGEON DEVELOPED

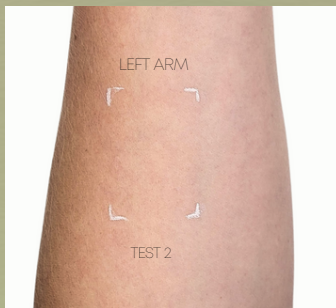

INNER GLOW™ SOL DEFENSE GUMMIES

Sol Defenses plant based formulation combines the scientifically-proven photoprotective properties of POLYPODIUM LEUCOTOMOS with the skin repairing properties of NIACINAMIDE. Together these two ingredients provide a reliable form of internal antioxidant protection against the skin damaging effects of UV exposure such as sun burn, collagen breakdown, and wrinkle formation.

UVB EXPOSURE TEST*

EXPOSURE TEST DONE PRIOR TO
INTAKE OF ANY SUN PROTECTION

EXPOSURE TEST DONE 1 HOUR POST
INTAKE OF SOL DEFENSE

*Ongoing comparative study of MED measurement on forearms of patients post NB UVB phototherapy device exposure.

Test 1: Subject's right arm, 24 hours post exposure. No sun protection supplement taken prior to UVB test.

Test 2: Subject's left arm, 24 hours post exposure. Subject took 1 dose of Sol Defense 1 hour prior to UVB test.

No sunscreen was applied for this experiment.

POLYPODIUM
LEUCOTOMOS

Clinically effective
280mg dose

NIACINAMIDE
(vitamin B3)

Enhances cellular repair
mechanisms against
actinic damage

PASSION
FRUIT

Decreases
skin inflammation

Meet sunscreen's new best friend

*Passion fruit infused skin-protective gummies for an additional layer of protection against sun-induced free radicals that sunscreen may have missed.**

*SOL DEFENSE IS INTENDED AS PART OF A MULTI-MODAL SUN PROTECTION REGIMEN. NOT TO BE USED AS A SOLE SOURCE OF SUN PROTECTION.
