HIDES OF EXCELLENCE

MERINO SHEEPSKIN

HANDLE WITH CARE

This genuine merino sheepskin has been tanned and processed under strict environmentally friendly guidelines. Rest assured no harmful AZO dyes have been applied to this hide.

It is safe for people, pets and the environment.

We recommend only spot cleaning using a soft, damp wet cloth with fresh water. Do not submerge in water or apply any chemicals to this hide. Allow to air dry in the shade.

Please note that dyed Merino sheepskin products must not be placed in sunlight as UV rays may fade and discolour the fleece. Colour transfer may occur.
