ABOUT US

Candle Family is the producer of natural wax, scented and odorless candles, home fragrance and car scents. We started our activity in spring 2017 in Lithuania. We pour every candle with our own hands with a lofty mood and great love for the products we create. We select scents and production materials slowly and thoroughly, and our collections are created with the help of professional product designers. We are here to create cosiness in our customer home, at the same time basing our activity on a slogan WE LIVE COZY.

WAX

We use only natural wax to make candles, which is obtained from renewable sources. Due to production technology and vegetable wax properties, the surface of candles is covered with a beautiful crystalline texture. Each produced candle has its own unique texture. The burning time of natural wax candles is several times longer than the burning time of candles made of paraffin. That gives an exclusive opportunity to enjoy the warmth and beauty of candles much longer.

SCENTS

Scented candles and home fragrance are made using aromatic and essential oils. Scented oils are produced in EU maintaining the highest production standards, quality and safety requirements.

ECO PACKAGING

All Candle Family products are packaged in recycled paper packaging. Recycled paper sheets are also used to secure the goods in the packaging. All packaging can be recycled and we urge our customers to sort the packaging waste.

RESPONSIBILITY AND SUSTAINABILITY

In pursuing our activities, we try to create a sustainable and socially responsible business, we encourage not to waste natural resources, also we participate and support various social actions and projects. We do not produce industrial waste while producing our products, and poor quality production is recycled. In production we aim to use as many natural materials as possible from renewable sources, also we use energy efficiently for production.
