

Summer Beauty

By LouLou Piscatore

The rules of summer beauty are simple -- protect, hydrate, have fun, and keep it clean!

Here are some of our summer obsessions!

Skin & Sun

Protect your skin. And your health!
When it comes to sunscreens choose wisely -- many brands contain harmful chemicals and endocrine disruptors. Look for all natural mineral based options.

Hair Care

Care for your Hair. Summer sun, salt, and chlorine takes its toll. Try a little extra TLC for your hair and scalp.

I. Shankara Tri-Dosha Hair and Scalp Oil
