

Accessories for Smart-Heat Gas Heaters* Continued

Installation of Ceiling Mount Pole*

Our ceiling poles cater for varying ceiling heights and angles.

This diagram illustrates one possible scenario where the mounting surface is angled, and a suspended ceiling is present.

If you have any questions please contact us on +61 2 9748 3900 or info@bromicheating.com

Bromic Ceiling Poles are made in 5 set lengths based on the height from the ground to the pole mounting surface (Position A). This distance (dimension H) is noted below with the corresponding Bromic Ceiling Pole part number.

Each Pole is manufactured to allow a clearance below the heater (Dimension B) of 8ft in accordance with installation requirements.

IMPORTANT:

When Selecting your Bromic Ceiling Pole, Please ensure that:

- Dimension B is no smaller than 8ft
- Dimension C is no smaller than 1'2" (with heat deflector)
- Dimension C is no smaller than 3'6" (without heat deflector)

Dimension H* (mm)	Bromic Part No.	Heat Deflector Required?
11'	BH3030003	Y
11'4"	BH3030004	Y
11'8"	BH3030005	Y
12'4"	BH3030006	Y
13'	BH3030007	Y
13'8"	BH3030008	Y

*Dimensions provided are nominal only. Slight variations may occur. All dimensions must be checked during installation.
