

MEET THE HALOPOCKET™

The revolutionary HaloPocket is the smallest commercial-grade Halogenerator ever launched. New Halogenerator Miniaturization Technologies (HMT (tm) were developed in both engineering and manufacturing to minimize the size while still maintaining the efficacy of the Halotherapy treatment. The product is ideal for Spas, wellness centers, etc. who want to offer an add-on respiratory/breathing enhancement service pre/post another treatment like massage, facials, etc. Additionally, it's a great new revenue stream to add the HaloPocket to one's retail / online offerings.

Features:

- ✓ Only 7.5"/190mm (length)
- ✓ Fast with 2-3 minute session times
- ✓ Convenient as can use anytime, anywhere
- ✓ Ships with 150 grams of pure pharma salt (300 sessions). Easy to reorder.
- ✓ Rechargeable battery

Breathe Salt, Breathe Better.

Halotherapy Solutions is built on a mission to help people breathe better naturally and to improve respiratory health, hygiene and immunity. We are passionate about what we do and very proud that our equipment has been chosen by so many of the best spas, wellness facilities and fitness centers around the world. Our customers include global wellness properties as well as local community facilities. Our whole team has each owned a salt therapy business so we provide unmatched advice & expertise to our clients in addition to our high-quality equipment.

WHAT CUSTOMERS ARE SAYING ABOUT HALOTHERAPY :

"I fell in love with salt therapy from my very first session and had to add it to my other wellness services. Halotherapy Solutions made the process so quick, simple and easy for me, even from Mexico City!"

- Alex, Owner
